

**Crimsafe® Security Doors** are custom built & aesthetically appealing which let you enjoy the view and the breeze without altering the facade of your home as the screen offers security without the need for bars or grilles. Crimsafe® doors are available in standard frames and colonial cast-panel designs. Because Crimsafe® doors do not obstruct your view, they are best anywhere that an attractive yet strong and secure door is required.

**FEATURES**

- 0.9mm Stainless Steel woven mesh powdercoated black
- Provides unhindered views whilst protecting against insects and intruders
- The Crimsafe® wire has a shading co-efficiency which improves the energy rating of glass doors and keeps your home cooler in summer and warmer in winter
- Blocks at least 30% of UV rays
- Midrail - reinforces the door and can be placed in almost any position across the door
- Screw-Clamp™ System - only Crimsafe® screws and clamps to achieve a greater resistance and strength against intruders
- Heavy extruded aluminium framing
- Tamper resistant screws ■ Solid corners
- 3 point hinging - for extra strength
- Pneumatic closer ■ Brush seal to base (bug strip)
- 10 year conditional guarantee

**OPTIONAL EXTRAS**

- Pet Doors ■ Keying alike (where possible)

**COLOURS**

Alutech Security has a comprehensive range of powdercoating colours both standard and non-standard to suit your personal decor.

**AUSTRAL LOCK**

Austral triple locking parrot beak lock plus a 5 pin key cylinder

All Crimsafe® doors feature a unique Screw-Clamp™ system. Tamper resistant screws go through a metal clamp then through the Tensile Tuff security mesh and is then driven right into the frame to hold the mesh in a vice like grip which gives the door enormous strength against attack. Crimsafe® doors are the only security system to feature the unique Screw-Clamp™ design for unbeaten strength.

# Crimsafe Hinged Security Door
