PRODUCT & PRICE GUIDE
2015

Conect Enterprises Terms and Conditions of Sale:

1. Pricing

1.1.   Prices may increase without notice, either online or via our pricelist from time to time. General increases and decreases in overall pricing by brand or product will be advised in writing either on our website, mail or email with 14 days notice.

1.2.   Errors and Omissions in our pricelist are excluded

1.3.   Pricing discussed by phone or email is considered verbal and will not be accepted unless accurate pricing is supplied via official Conect quotation form valid for 30 days.

1.4.   Any on going special pricing must be approved by management and mutually signed off by both parties on a special pricing form prior to being implemented and loaded into our system

1.5.   Failure to follow this procedure will result in special pricing being invalid.

1.6 Prices exclude GST

1.7 Minimum order spend is $20.00 plus gst

2. Technical Information & Support

2.1.   Information provided by Conect staff members, our website and pricelists is based on information we believe to be correct and reliable. Any information given if provided is to be used as a guide and does not constitute a warranty.

2.2.   Purchasers should assess the suitability of the product being purchased for the application prior to ordering the goods.

2.3.   Conect maintains no responsibility or liability on advice given regarding manufacturing or production methods used and purchasers should independently determine the appropriate process of their own accord.

3. Payment of Goods

3.1.   Ownership of Goods:

3.1.1. All goods remain the property of Conect Enterprises until such time as they are paid in full.

3.2.   Payment Options

3.2.1. Customers without an approved 30 day trading account will be required to pay prior to goods being sent. No goods will be sent without payment if an account has not been approved. Please allow 7 days for processing and ensure all pages are completed and signed in full by the owners/directors of the business.

3.2.2. We accept the following methods of payment: Credit card or EFT is our preferred method of payment. Cash will be accepted at our branch trade counters for customer pick ups or via our local delivery vans. Please advise us at time of order if you would like change.

3.2.3. Credit cards- Are the easiest and more convenient way to do business with Conect. This will allow goods to be sent the most efficiently.

3.2.3.1.   We accept Visa & MasterCard only

3.2.4.   EFT – An official bank notification must be sent prior to goods being sent. It must include the bank name, company or purchaser's name with an official receipt number. The payment must be confirmed and not pending.

3.2.4.1.   Customers who choose to pay via EFT and haven't purchased before must wait 3 days for payments to clear prior to goods being sent.

3.2.5. Cheque Payment – Cheques will not be accepted as payment unless via prior arrangement with management. If you haven't traded with us previously, credit card and cash are the only methods accepted.

3.3. Trading Terms

3.3.1. Trading Terms are strictly 30 days from the end of the month and are subject to credit approval. Customers who are over these terms can not be guaranteed supply of goods.

3.3.2. Credit Limits do apply and payment may be sought prior to more goods being shipped out if you are over your credit limit.

3.3.3. Your credit limit may be reviewed from time to time and adjusted depending on financial reporting available at the time.

4. Return of Goods

4.1.   Any errors in delivery by Conect must be reported to customer service with in 7 days of receiving the goods. Any issues after 7 days will not be recognised.

4.2.   A request for return   or credit must include the date of purchase and either the order confirmation number or invoice number as proof of purchase.

4.3.   Any physical returns must be approved by the Customer Service Manager prior to the return. Any goods sent back without approval will be rejected.

4.3.1. Orders for return must be arranged for Collection by Conect and a tracking number issued using an approved Conect freight provider.

4.4.   Any goods ordered in error by the customer will incur a restocking fee of 10% - no exceptions.

4.5.   Items ordered in especially for the customer that are not a stocked item by Conect can not be returned due to change of mind or circumstance

4.6.   Orders that require slitting or cutting to size must be requested in writing by fax or email – no cutting sizes will be accepted over the phone.

5. Delivery Times & Costs

Conect has one of the most diverse ranges of delivery options in our industry. Our customer focused freight solutions are designed to give our customers the best possible service and best value possible.

METAMARK MD - X

MetaWrap MD-X is a 50 micron ultra-conformable, extensible digital wrapping media, supplied with the METAScape air release adhesive system to allow quick and easy application on compound curves as well as moderate recesses.
Ideal for:
• MD-X has a permanent, METAScape (Bubble free) adhesive
• Is suitable to be used with Eco Solvent, Latex and UV ink
• Matches with the MG – X overlaminate series

METAMARK MD -XB

MetaWrap MD-XB is a 50 micron ultra-conformable, extensible digital wrapping media. The soft film has been developed to flow and conform over the most challenging surfaces so it's ideal for total vehicle wraps. The grey blockout adhesive (on the white film version) ensures vibrant graphics and minimal substrate show through, as well as clean removal.
Ideal for:
• MD-XB has a grey block out permanent adhesive
• Is suitable to be printed with Eco Solvent, Latex and UV inks
• Matches with the MG- X overlaminate series

METAMARK MD5A WHITE

MD5A is a 70 micron polymeric gloss white block out digital film with METAScape technology. METAScape technology offers users trouble – free application by providing easy removal of bubbles and creases.
Ideal for:
• MD5A has a grey permanent, METAScape (Bubble free) and block out adhesive
• Is suitable to be used with Eco Solvent, Latex and UV ink
• Matches with the MG – 700 overlaminate series

AVERY ETCHMARK

Etchmark offers a faster, trouble-free application of glass displays, whilst allowing the installer to use wet application method. When using Avery Etchmark a graphics can be created with a smooth consistent finish, whether computer-cut or total-coverage is required.

Ideal for:
- Avery Etchmark is a 50 micron film
- Acid etched cast film
- Durable for up to 7 years.

AVERY FROSTED SPARKLE

Frosted Sparkle offers a faster, trouble-free application of glass displays, whilst allowing the installer to use wet application method. When using Avery Frosted Sparkle a graphics can be created with a smooth consistent finish, whether computer-cut or total-coverage is required.

Ideal for:
- Avery frosted sparkle is a 50 micron film
- Acid etched cast film
- Durable for up to 7 years.

AVERY CRYSTAL GLASS

Crystal Glass offers a faster, trouble-free application of glass displays, whilst allowing the installer to use wet application method. When using Avery Crystal Glass a graphics can be created with a smooth consistent finish, whether computer-cut or total-coverage is required

Ideal for:
- Avery crystal glass is a 70 micron film
- Acid etched calendered film
- Durable for up to 5 years.

AVERY DUSTED GLASS

Dusted Glass offers a faster, trouble-free application of glass displays, whilst allowing the installer to use wet application method. When using Avery Dusted Glass a graphics can be created with a smooth consistent finish, whether computer-cut or total-coverage is required.

Ideal for:
- Avery dusted glass is a 70 micron film
- Acid etched calendered film
- Durable for up to 5years.

AVERY TRANSLUCENT 5500 SERIES

The Avery 5500 series offers outstanding colour fastness, and exceptional colour conformability on a wide variety of substrates and window graphics.
Ideal for:
* Avery 5500 translucent series is a 50 micron film
* Avery 5500 translucent is a cast film
* Durable for up to 7 years externally in Australian conditions.

ARLON TRANSLUCENT 2500 SERIES

The Arlon 2500 translucent series is a cast translucent vinyl with a specifically developed acrylic pressure-sensitive adhesive.
Ideal for:
* Arlon 2500 translucent series is a 2.1 mils film
* Arlon 2500 translucent is a cast film
* Durable for up to 7 years externally in Australian conditions.

METAMARK TRANSLUCENT T SERIES

The Metamark T series is a satin finish calendered vinyl that performs well in the Australian climate and provides exceptional value for money. The T Series offers dependability in colour transmission.
Ideal for:
* 80 micron satin film
* Polymeric calendered film with a crystal clear high grade solvent based acrylic adhesive
* Durable for up to 5 years externally in Australian conditions.

ARLON 5570

The Arlon 5570 diffuser film cast diffuser vinyl with a specifically developed acrylic. Diffuser Films are products designed to break up and distribute light evenly. The film will reduce LED hot-spots typically associated with LEDs.
Ideal for:
* 50 Micron diffuser film with a satin finish
* Pressure-sensitive adhesive.
* Arlon 5570 series has an external lifespan of up to 7 year in Australia.

CALON DIFFUSER FILM

Calon Diffuser film has been designed for second surface applications of internally illuminated signage and displays. The diffuser film allows a more uniform light control.
Ideal for:

*   Available in either 30% or 70%
*   Permanent white adhesive
*   Durable for up to 7 years externally in Australian conditions

AVERY FLUORESCENT

Avery Fluorescent is a 56 micron high gloss cast film that is suitable for high visibility safety and promotional signage. The Avery Fluorescent is suitable for computer cut and is suitable for flat and simple curves for both internal and external applications.
Ideal for:

*   Avery Fluorescent is a 56 micron cast film
*   Permanent white acrylic adhesive
*   Durable for 3 to 6 months externally in Australian conditions

METAMARK FLUORESCENT

Metamark Fluorescent is suitable for high visibility safety and promotional signage. The Metamark Fluorescent is suitable for computer cut and has a solvent free acrylic adhesive. The Metamark fluorescent is suitable for both internal and external applications.
Ideal for:

*   120 micron film
*   Metamark Fluorescent is a calendered film
*   Durable for 3 to 6 months externally in Australian conditions

RITRAMA NEON FLUORESCENT

The Neon Fluorescent is a wet look, high performance cast vinyl that has been designed to provide dynamic graphic accents for both internal and external applications.
Ideal for:

*   Neon Fluorescent is a cast 114 micron film
*   Permanent white adhesive
*   Durable for up to 2 years externally in Australian conditions

METAMARK METAFLEX BANNER

MetaFlex is a soft vinyl for application on to flexible substrates. Metaflex is formulated to resist plasticiser migration and creasing inherent to applications onto flexible pvc banners or awnings. The 80 micron film is supplied with a permanent adhesive with low initial tack. MetaFlex offers 3 years durability. (Not suitable for application onto truck curtains.)
Ideal for:
- Metaflex is an 80 micron banner film
- Permanent adhesive
- Durable for up to 3 years externally in Australian conditions

AVERY BANNER FILM

Avery 1200 Banner Film is ideal for a wide range of corporate, event, and exhibition banner applications, both indoor and outdoor.
Ideal for:
- Avery Banner is a 70 micron banner film
- Avery Banner Film is removable for up to 12 months allowing banners to be reused again
- Durable for upto 3 years externally in Australian conditions

SANDBLAST GREY

Computer Sandblast Vinyl suitable for Monumental Mason application and Glass Sandblasting. We recommend that you always try on a test area before hand

Ideal for:
- Pressure sensitive adhesive
- Removes without residue
- 0.4mm thickness

SANDBLAST HARTCO

The 400 Series is the most popular in the Hartco line of SandMask resist (Sandblast Stencil). Designed to be versatile, 400 is a general purpose resist used on a wide variety of substrates making it an all around strong performing product. The superior vinyl formulation is thinner, easy to cut, and easy to weed, with a high degree of protection and blastability.
Ideal for:
- Pressure sensitive adhesive
- We recommend that you always try on a test area before hand
- 25 mil thick

AVERY HV1200 REFLECTIVE

Avery HV1200 is a reflective vinyl with16 colours available. Class 2 or Engineering grade reflective, is a low visibility sheeting that is used in car park or rural road situations. Avery HV1200 is conformable to flat and simple curved surfaces.
Ideal for:
- Avery HV1200 series is a 140 micron film
- Class 2 reflective with a permanent adhesive
- Durable for up to 7 years externally in Australian conditions.

AVERY HV1200 EARS

Avery HV1200 series is a reflective vinyl with air channels to allow for easy removal of bubble and wrinkles. The Class 2 or Engineering grade reflective is a low visibility sheeting that is used in car park or rural road situations. Avery HV1200 series is conformable to flat and simple curved surfaces.
Ideal for:
- Avery HV1200 series is a 140 micron film
- Class 2 reflective with an air release liner adhesive
- Durable for up to 7 years externally in Australian conditions.

AVERY OL-2000 TRANSPARENT OVERLAY FILM

Avery OL-2000 transparent film is a film hat has been specifically designed for over laminating reflective films. The OL-2000 series has a high gloss finish for superior appearance.
Ideal for:
- Avery OL-2000 is a 100 micron film
- Specially design as an overlay on reflective
- Durable for the life of the reflective it is applied to.

AVERY REFLECTIVE 65 SERIES

Avery TR 6500 series is a high intensity grade, class 1 reflective. High intensity or class 1 is identified by the honeycomb pattern through the sheeting. This product is used for high visibility such as traffic work zones and highway signage. Avery TR 6500 series is conformable to flat and simple curved surfaces.
Ideal for:
- Avery TR 6500 series is a 450 micron film
- Class 1 reflective with a permanent adhesive
- Durable for up to 10 years externally in Australian conditions.

AVERY REFLECTIVE TR 7513

Avery T-7513 is a yellow-green fluoro prismatic grade, class 1 reflective. High intensity or class 1 is identified by the honeycomb pattern through the sheeting. This product is used for high visibility such as traffic work zones and highway signage. Avery T-7513 is conformable to flat and simple curved surfaces.

Ideal for:

•   Avery T-7513 is a 525 micron film
•   Class 1 reflective with a permanent adhesive
•   Durable for up to 7 years externally in Australian conditions.

AVERY REFLECTIVE TR 7514

Avery T-7514 is a fluoro orange prismatic grade, class 1 reflective. High intensity or class 1 is identified by the honeycomb pattern through the sheeting. This product is used for high visibility such as traffic work zones and highway signage. Avery T-7514 is conformable to flat and simple curved surfaces.

Ideal for:

•   Avery T-7514 is a 385 micron film
•   Class 1 reflective with a permanent adhesive
•   Durable for up to 7 years externally in Australian conditions.

V- 5720 CONSPICUITY TAPE

Avery V – 5720 conspicuity tape is a prismatic class 1 reflective. Class 1 or High intensity is identified by the honeycomb pattern through the sheeting. This product is used for high visibility such as traffic work zones and highway signage. Avery V-5720 tapes have been developed with a repositionable permanent adhesive to help keep a straight line during application.

Ideal for:

•   Avery V-5720 tape is a 450 micron red and white stripped film
•   Class 1 reflective with a permanent adhesive
•   Durable for up to 7 years externally in Australian conditions.

V - 67 SERIES CONSPICUITY TAPE

Avery V – 6700 conspicuity tape is a prismatic class 1 reflective available in white, yellow and red. Class 1 or High intensity is identified by the honeycomb pattern through the sheeting. This product is used for high visibility such as traffic work zones and highway signage. Avery V-6700 tapes have been developed with a repositionable permanent adhesive to help keep a straight line during application.

Ideal for:

•   Avery V-6700 series is a 450 micron film
•   Class 1 reflective with a permanent adhesive
•   Durable for up to 7 years externally in Australian conditions.

AVERY BRIGHT CHROME

Avery Bright Chrome is a polyester vinyl that is suitable for a wide range of short term internal and external decals and is suitable on flat surfaces only.

Ideal for:

- Avery bright Chrome is a 50 micron film
- Permanent acrylic adhesive
- Durable for up to 2 years externally in Australian Conditions

AVERY BRUSHED CHROME

Avery Brushed Chrome is a polyester vinyl that is suitable for a wide range of short term internal and external decals and is suitable on flat surfaces only.

Ideal for:

- Avery brushed Chrome is a 50 micron film
- Permanent acrylic adhesive
- Durable for up to 2 years externally in Australian Conditions

AVERY GLOSS GOLD

Avery Gloss Gold is a double sided polyester vinyl that is suitable for a wide range of internal and external decals. Avery gloss gold is suitable for flat surfaces such as windows where double sided gloss gold effect is required.

Ideal for:

- Avery gloss gold is a 25 micron film
- Permanent acrylic adhesive
- Durable for up to 2 years externally in Australian Conditions

AVERY WOODGRAIN

Avery Wood gain is a timber look calendered vinyl that is available in Bravo Burl and Cheyenne Teak. The Avery wood grain vinyl is ideal for a wide range of internal and external applications where a timber look is desired.

Ideal for:

- Avery wood grain is a 90 micron film
- Permanent acrylic adhesive
- Durable for up to 3 years externally in Australian Conditions

WEEDING TOOL

A great tool to make that mundane job that little bit easier.

COATED FIBRE GLASS SHEETS

Teflon Protective Sheets can be used as a barrier to protect vinyl cut or digital transfers from the top plate of a heat press. The sheets are 450mm wide x 500mm high.

BLACK SAMPLE BOOK

A great sample book with every colour of every film, a great tool to show your customers.

SILVER SAMPLE BOOK

The Siser Silver Sample book showcases extensive designs of Siser Products Multi layered. This book is showcased at Open Houses and Expo's across Australia

HEAT TRANFER PILLOW

Heat Transfer Pillows have a core of soft foam covered by our non-stick Heat Transfer Cover Sheet material. The thickness of the foam allows you to elevate the working space, keeping unwanted areas away from the heat to give you an even surface for each application. Most commonly used on garments with zippers, buttons, seams, and pockets.
Sizes include: 15cm x 20cm, 12cm x 45cm, 25cm x 30cm

Car Wrapping 4

ISEE2 CHROME COLOURS

The Ultra Chrome 50 series of metallised films have been specially designed to give the look of highly polished metals with a mirror-like effect. The film is 50 microns thick, conformable & exhibits high extensibility. This film series can be applied easily to any flat or slightly curved surface. If the installer is experienced then it is possible to apply this film around complex curves but care must to be taken as not to stretch the film which will damage the integrity of the metallised surface finish.

- Available in 7 colours
- Up to 6 years durability in Australian conditions

| Red | Pink | Blue | Gold | Ultra Silver | Black |

ISEE2 LEATHERS

The Leather Effect films are a 200 micron textured cast PVC film. This Total Wrap product has been developed specifically for the vehicle wrapping market. 1 x Avery pro squeegee 130mm blue
1 x Avery Surface cleaner 1lt
1 x Avery tool kit knife
1 x Avery tool kit laser temp
1 x Avery tool kit magnets (pair)
1 x Avery tool kit snitty
1 x Avery tool kit tool belt
1 x Conect Felt Block

AVERY FLEXSTREAM SQUEEGEE

Avery Flex stream tools are ideal for hard to reach areas such as around vehicle indicators. Available in Red (soft) and Blue (firm), Avery Flex stream tools are the must have accessory in the tool belt for the serious vehicle wrapper.

AVERY APPLICATION GLOVES

Avery application gloves are soft, seamless cotton with anti-static and friction resistance properties to help smooth graphics into curves and recesses.

AVERY PRO FLEXIABLE SQUEEGEE

The Avery Pro Flexible Squeegee is softer and more flexible that the standard Squeegee. The Avery Pro Flexible is ideal for corrugations and 3D applications. Felt layered the squeegee is distinguishable because of its red colour and a must have for the serious car wrapper.

AVERY PRO SQUEEGEE

Aver pro squeegee is a 130mm felt tipped squeegees that are ideal for a wide variety of applications especially when applying digital media.

PRODUCT	SIZE	TYPE	PRODUCT CODE	PRICE
Wrap Tools Launch Kit	Various	Various	TACTK	$292.65
Avery Flexstream Squeegee	170mm	Hi Tech	AVFLEXS	$22.47
Avery Application gloves	One size	Pair	GLOVE	$12.48
Avery Pro Flexible Squeegee	100mm	Felt Tip	SQ-PF	$4.22
Avery Pro Squeegee	130mm	Felt Tip	SQ-F1	$5.91

AVERY SURFACE CLEANER

The Avery Surface cleaner is a cleaning solution made for cleaning surfaces prior to vinyl application. It comes in a 1lt bottle.

AVERY TOOL KIT KNIFE

Avery Tool Kit knife is a 9mm snap knife that holds 9mm 30° angled snap blades.

AVERY TOOL KIT LASER TEMP

The Aver Laser Temp is an IR thermometer used for monitoring post heating for vehicle wrapping. A must-have tool for the wrapping specialist.

AVERY TOOL KIT MAGNETS (PAIR)

The Avery Magnets are heavy duty magnets with strong pull to hold graphics in place on vehicles when wrapping and applying large fleet graphics.

AVERY TOOL KIT SNITTY

The Avery Snitty is a safe slitting tool for trimming of graphics quickly without chance of injury.

AVERY TOOL KIT TOOL BELT

The Avery Tool belt fits all the Avery tools and includes a special metal plate for magnets. The tool belt allows for fast and easy access during application.

PRODUCT	SIZE	TYPE	PRODUCT CODE	PRICE
Avery Surface Cleaner	1 litre	Cleaner	ATK2	$13.55
Avery Surface Cleaner	5 litres	Cleaner	ATK25	$63.41
Avery Tool Kit Knife	n/a	Knife	ATK1	$13.48
Avery Tool Kit Laser Temp	n/a	Temperature Gun	ATK3	$151.78
Avery Tool Kit Magnet Pair	n/a	Magnets	ATK4	$31.46
Avery Tool Kit Snitty	n/a	Knife	ATK6	$12.87
Avery Tool Kit Tool Belt	n/a	Belt	ATK5	$22.48

AVERY AIR RELEASE PEN

The Avery Air Release Pen is a sharp retractable pin in a handy pen design for releasing trapped air and eliminating bubbles during application.

EDGE SEALER

Total Seal is a fast and easy solution to edge sealing problems with vinyl applications. Total Seal consists of a clear acrylic lacquer containing UV blocking agents, which drys in approximately 10 minutes after application.
The Total Seal lacquer is applied with the nib of pen to the edge of graphics that require protection from lifting, which may be caused by environmental exposure, cleaning or excessive contact. This vinyl graphic edge sealer can also be used to fill the dents and correct the surface finish of a car body prior to wrapping

AUTOGLYM

Autoglym PowerMax 3 is a cleaner designed for copolymer coating (a coating applied to new vehicles to help keep clean but inhibit vinyls adhering to them) removal off new vehicles like the Mercedes Vito vans to ensure perfect surface preparation for vehicle wrapping.

AVERY TOOL KIT SPARE BLADE

Avery tool kit spare blades are 30 degree snap blades, they come in a pack of 45 blades.

PRODUCT	SIZE	TYPE	PRODUCT CODE	PRICE
Avery Air Release Pen	n/a	Air Release	AIR	$11.62
Edge Sealer	n/a	Edge Sealer	IS2-97000	$25.00
Autoglym	5 litres	Cleaner	AGPM5	$55.64
Avery Tool Kit Spare Blades	n/a	Snap Blades	ATK11	$47.22

KNIFELESS TAPE FINISH LINE

Knifeless Finish Line Tape is designed for cutting graphic film without the use of a knife. Making trimming and applying the perfect curves to any surface easy, all without the damage to any surface.

The 3 basic steps on using the Knifeless tape range:

1. Place the film on top of the cutting tape, leaving 3-4 inches of slack on the end
2. Pull the filament up through the film, clean cutting into the forms produced
3. Leaving a cut, as though it was done by a knife, but without the risk to the surface

KNIFELESS TAPE DESIGN LINE

Knifeless Tape Design Line, is the latest in Knifeless technology, which allows the user to produce quality cuts equal to a plotter.

What's different:

• Made to stretch, both the tape and the filament
• Stretching the tape, allows the tape to easily curve in any direction
• Stretching the tape, also will create straight lines
• Not a replacement for Finish Line

KNIFELESS TAPE BRIDGE LINE

Perfect for cutting out graphic film without using a knife and for bridging wide gaps such as, between doors and rubber seals, etc. Never have to worry about damaging anything again, by cutting with a knife.

The Knifeless Bridge Line tape can be used in 4 easy steps:

1. Apply knifeless tape
2. Apply desired film on top
3. Pull up the filament up through the film, giving a smooth clean cut finish
4. And remove residual tape

PRODUCT	SIZE	TYPE	PRODUCT CODE	PRICE
Knifeless Tape Finish Line	50m	Knifeless Tape	KTFL	$40.90
Knifeless Tape Design Line	50m	Knifeless Tape	KTDL	$40.90
Knifeless Tape Bridge Line	50m	Knifeless Tape	KTBL	$40.90

DEMO BOARD

Visual Magnetics Demo boards are excellent visual aids when you are introducing Visual Magnetics to potential clients.

SWATCH BOOK

Visual Magnetics swatch books are excellent visual aids when you are introducing Visual Magnetics to potential clients and come with samples of every media for the client to see and touch.

ACTIVEWALL PRIMER

Activate wall surfaces that will utilize Invisilock magnet. It is commercial grade and a water based primer making it easier to clean up after application. It eliminates the use of adhesives or hardware required to create a display which can cause damage to wall surfaces. Wall surfaces can be painted over at least 6 times with interior topcoat paint without affecting the magnetic properties before a new reactive coat is required. It attracts for an indefinite time.

PRODUCT	SIZE	TYPE	PRICE
Demo Board	240mm x 300mm	Small	$26.25
Demo Board	450mm x 500mm	Medium	$105.00
VM - Swatch Book	N/A	Sample Book	$84.00
Activewall Primer	946ml	Primer	$39.90
Activewall Primer	3.78L	Primer	$115.50
Activewall Primer	11.35L	Primer	$333.90

INVISILOCK 30HE

Is designed specifically for use with the Visual Magnetics Graphic System and is a custom engineered adhesive-backed flexible black magnet that is applied to smooth interior fixture surfaces. Being a high-energy magnet it supports up to 4 Magna Media layers. It allows for accents or special promotions to be applied on top of a base graphic. It is easy to cut and trim with a utility knife or scissors and lock in place.

INVISILOCK 30HP

Is designed specifically for use with the Visual Magnetics Graphic System and is a custom engineered adhesive-backed flexible black magnet that is applied to smooth interior fixture surfaces. As it is an adhesive-backed magnet it does not require ActiveWall primer. Being a high-energy magnet it supports up to 4 Magna Media layers. It allows for accents or special promotions to be applied on top of a base graphic. It includes Surface Protect: a white, scuff-protective layer, which safeguards graphics from being damaged when applying multiple layers. It is easy to cut and trim with a utility knife or scissors and lock in place.

INVISILOCK 30SE

Is designed specifically for use with the Visual Magnetics Graphic System and is a custom engineered adhesive-backed flexible black magnet that is applied to smooth interior fixture surfaces. Being a high-energy magnet it supports up to 3 Magna Media layers. It allows for accents or special promotions to be applied on top of a base graphic. It is easy to cut and trim with a utility knife or scissors and lock in place

INVISILOCK 40HE

Is a 40-mil two sided black flexible magnet which attracts to surfaces that have been treated with ActiveWall latex primer specifically for use with the Visual Magnetics Graphic system. Being a high energy magnet surface it supports up to four Magna Media layers. It allows for accents or special promotions to be applied on top of a base graphic.
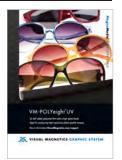

PRODUCT	SIZE	TYPE	PRICE
Invisilock 30HE Magnet	610mm x 15m	Magnet	$412.23
Invisilock 30HP	610mm x 610mm	Magnet tiles	$302.89
Invisilock 30HP	610mm x 15m	Magnet	$436.17
Invisilock 30SE	610mm x 15m	Adhesive Magnet	$189.12
Invisilock 40HE	610mm x 610mm	Magnetic tiles	$315.00
Invisilock 40HE	610mm x 15m	2 - sided magnet	$525.00

VM-POLYEIGHT UV

Is a 305 micron white polyester magnetic receptive film with a high gloss print surface. Premium gloss print coating optimized for analogy and UV cure print devices. It is ideal for creating overlays, artwork reproductions and high resolution photos.
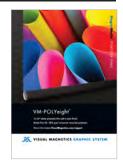

Ideal for:

- VM-POLYeight UV is compatible with most UV-Cured
- Can be overlay up to 4 layers (using the High Energy magnetic)
- Polyester base designed for high temperature applications.

VM-POLYEIGHT

Is a 305 micron magnetic receptive film with a satin print surface and is made from 25-50% post consumer PET plastic. It is ideal for creating overlays, artwork reproductions and high resolution photos. Compatible with most analogue and digital printing technologies. The Micro-Iron back-coating easily enables displays to be updated.

Ideal for:

- Can be overlay up to 4 layers (using the High Energy magnetic)
- PVC free.
- VM-POLYeight is compatible with most UV-Cured and HP Latex.

VM-POLYFIVE

A 229 micron magnetic receptive film with a satin print surface and is made from 25-50% post consumer PET plastic. It is ideal for creating overlays, artwork reproductions and high resolution photos.

Ideal for:

- High resolution photo and artwork reproductions
- Can be overlay up to 4 layers (using the High Energy magnetic)
- VM-POLYfive is compatible with most UV-Cured and HP Latex.

VM-POLYMATTE

Is a 365 micron magnetic receptive polypropylene film with a matte print surface. Being a very printer friendly product it provides a uniform photo-quality feel and look to the in-store experience. It is ideal for creating artwork reproductions, high resolution photos and overlays.

Ideal for:

- Can be overlay up to 4 layers (using the High Energy magnetic)
- VM-POLYmatte is compatible with most aqueous, solvent, Eco-solvent, UV-Cured and HP Latex.
- Polypropylene base not designed for high temperature applications.
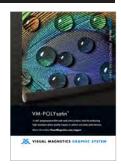

PRODUCT	SIZE	TYPE	PRICE
VM-POLYeight UV	1372mm x 6m	Sample kit	$178.50
VM-POLYeight UV	1372mm x 30m	Full roll	$850.50
VM-POLYeight	1370mm x 6m	Sample Kit	$173.25
VM-POLYeight	1372mm x 1m	Meter	$34.73
VM-POLYeight	1372mm x 30m	Full roll	$833.49
VM-POLYfive	1372mm x 1m	Meter	$27.25
VM-POLYfive	1220mm x 30m	Full Roll	$653.94
VM-POLYmatte	1370mm x 6m	Sample Kit	$204.75
VM-POLYmatte	1370mm x 1m	Meter	$40.72
VM-POLYmatte	1370mm x 30m	Full Roll	$977.13

VM-POLYSATIN

Is an 280 micron magnetic receptive polypropylene film with a satin print surface. It provides a uniform photo quality feel and look to the in-store experience making it ideal for creating artwork reproductions, high resolution photos and overlays.
Ideal for:
- High resolution photo and artwork reproductions
- Can be overlay up to 5 layers (using the High Energy magnetic)
- VM-POLYsatin is compatible with most solvent, eco-solvent, UV-Cured and HP Latex.

VM-SYN PAPER

Is a 305 micron magnetic receptive white polypropylene film (synthetic paper) with a matt print surface making it an economical print media option.
Ideal for:
- High resolution photo and artwork reproductions
- Can be overlay up to 5 layers (using the High Energy magnetic)
- VM-SYNpaper is compatible with most screen and UV-Cured printers. Can be used with Latex but it depends on the profile

PRODUCT	SIZE	TYPE	PRICE
VM-POLYsatin	1372mm x 6m	Sample Kit with 30SE	$175.39
VM-POLYsatin	1372mm x 6m	Sample Kit with 40HE	$273.30
VM-POLYsatin	1372mm x 30m	Satin	$595.35
VM-POLYsatin	1520mm x 30m	Satin	$661.50
VM-SYN PAPER	1372mm x 6m	Sample Kit with 30SE	$116.66
VM-SYN PAPER	1372mm x 6m	Sample Kit with 40HE	$220.50
VM-SYN PAPER	1520mm x 30m	Full Roll	$478.28

VM-CANVAS

Is a 560 micron 100% cotton magnetic receptive canvas featuring a soft versatile matte textured print surface which is ideal for producing textured photos, artwork reproductions and murals. Enhances dimensionality and the in-store experience adding warmth and luxury.
Ideal for:
- Use with InvisiLock 40HE or 30HE high-energy magnets.
- 3 Layers maximum.
- VM-Canvas 22 is compatible with most solvent, Eco-solvent, UV-Cured and HP Latex.

VM-BAMBOO

Is a 432 micron digital bamboo magnetic receptive fabric which is ideal for producing wall murals and smooth textured photo reproductions enhancing the in-store experience adding warmth and luxury. It has a versatile matte print surface
Ideal for:
- Use with InvisiLock 40HE or 30HE high-energy magnets.
- 3 Layers maximum.
- VM-Bamboo is compatible with most solvent, Eco-solvent, UV-Cured and HP Latex.

VM-HARVEST

Is a 813 micron digital media that adds a natural warmth and organic feel to the in-store experience with 100% natural jute and a natural rubber base. It is a burlap fabric with a coarse textured print surface and is magnetic receptive. It is recommended for creating heavily textured photos, artwork reproductions and wall murals.
Ideal for:
- Use with InvisiLock 40HE or 30HE high-energy magnets
- Thick fabric not designed for multi-layer use.
- VM-Harvest is compatible with most solvent, Eco-solvent, UV-Cured and HP Latex.

PRODUCT	SIZE	TYPE	PRICE
VM-CANVAS	1372mm x 6m	Sample Kit	$273.00
VM-CANVAS	1520mm x 1m	Meter	$54.68
VM-CANVAS	1520mm x 30m	Full Roll	$1312.50
VM-BAMBOO	1270mm x 6m	Sample Kit	$315.00
VM-BAMBOO	1270mm x 1m	Meter	$63.00
VM-BAMBOO	1270mm x 30m	Full Roll	$1512.00
VM-HARVEST	1168mm x 6m	Sample Kit (30SE)	$414.78
VM-HARVEST	1168mm x 1m	Meter	$62.12
VM-HARVEST	1168mm x 15m	Full Roll	$745.44

VM-MONARCH

Is a 559 micron digital magnetic receptive, 100% post consumer polyester fabric with a smooth plain weave print surface. It adds a luxurious feel and natural warmth to an in-store experience. It is absolutely ideal for murals, artwork reproductions and producing medium resolution photos.
Ideal for:
- Use with InvisiLock 40HE or 30HE high-energy magnets
- Medium weight fabric, may be layered with one film overlay.
- VM-Monarch 22 is compatible with most solvent, Eco-solvent, UV-Cured and HP Latex.

VM-LUNA

VM-Luna14 is a new addition to the Digital Fabric Collection of Magna Media. A 356 micron 100% post consumer polyester, magnetic receptive, fabric with an ultra-smooth, poplin weave print surface.
Ideal for:
- Use with InvisiLock 40HE or 30HE high-energy magnets
- Lightweight fabric, may be layered with one film overlay
- VM-Luna 14 is compatible with most solvent, Eco-solvent, UV-Cured and HP Latex.

PRODUCT	SIZE	TYPE	PRICE
VM-Monarch	1372mm x 6m	Sample Kit (30SE)	$357.83
VM-Monarch	1520mm x 1m	Meter	$64.58
VM-Monarch	1520mm x 30m	Full Roll	$1549.80
VM-LUNA	1372mm x 6m	Sample Kit (30SE)	$340.55
VM-LUNA	1520mm x 1m	Meter	$61.08
VM-LUNA	1520mm x 30m	Full Roll	$1465.80

VM-MAPLE

Is a 12-mil wood grain finish product with a 100% FSC (Forest Stewardship Council) certified cellulose base that is dye sublimation printed in a wood grain pattern. It is then encapsulated in a durable resin finish. It is ideal for creating images enhanced with a wood grain surface.

Ideal for:

- Has a semi-matte like finish and anti-microbial properties.
- May be overlayed with up to 2 films.
- VM-Maple12 is compatible with UV-Cured and HP Latex.

VM-WALNUT

Is a 12-mil wood grain finish product with a 100% FSC (Forest Stewardship Council) certified cellulose base that is dye sublimation printed with a walnut wood grain pattern then encapsulated in a durable resin finish. It is ideal for creating an enhanced wood grain surface.

Ideal for:

- Conforms easily to curves and bends for contour applications.
- May be overlayed with up to 2 films.
- VM-Walnut12 is compatible with UV-Cured and HP Latex.

VM-OAK

Has a 100% FSC (Forest Stewardship Council) certified cellulose base that is dye sublimation printed with a wood grain oak wood finish then encapsulated in a durable resin finish. Ideal for creating images enhanced with a wood grain surface.

Ideal for:

- Conforms easily to curves and bends for contour applications.
- May be overlayed with up to 2 films.
- VM-Oak12 is compatible with UV-Cured and HP Latex.

PRODUCT	SIZE	TYPE	PRICE
VM-Maple	1220mm x 6m	Sample Kit (30SE)	$300.44
VM-Maple	1220mm x 1m	Meter	$52.95
VM-Maple	1220mm x 30m	Full Roll	$1270.92
VM-Walnut	1220mm x 1m	Meter	$52.95
VM-Walnut	1220mm x 30m	Full Roll	$1270.92
VM-Oak	1220mm x 1m	Meter	$52.95
VM-Oak	1220mm x 30m	Full Roll	$1270.92

VM-CHALKBOARD

Visual Magnetics VM-CHALKboard is a 330 micron, 100% opaque and a unique addition to the Specialties Collection of MagnaMedia. A 100% polyester base coated with a matt black chalkboard, writeable and printable surface.

Ideal for:
- May be overlayed with up to 2 other films.
- Easy to erase.
- VM-CHALKboard is compatible with most solvent, Eco-solvent, UV-Cured and HP Latex.

VM-DRYERASE

A 330 micron, 100% white polyester base coated with a durable, clear, dry erase writeable and printable surface, VM-DRYerase is ideal for producing hand written menu boards, educational white boards, corporate boardrooms, writeable wall coverings and any other application requiring a dry erase.

Ideal for:
- Accepts all dry erase markers and erases cleanly, excellent "Ghosting" resistance
- May be overlayed with up to 2 other films.
- VM-DRYerase is compatible with most UV-Cured printing technologies

VM-ECOTEN

A 277 micron, 100% FSC (Forest Stewardship Council) and GREENGUARD gold certified cellulose base encapsulated in a durable resin finish with a magnetic receptive reverse surface. It has an ultra-smooth semi-matte print surface which is natural white and a durable base made from sustainable forestry practices. It is ideal for producing high resolution photos, artwork reproductions and murals.

Ideal for:
- Conforms easily to curves and bends for contour applications.
- May be overlayed with up to 2 other films.
- VM-ECOten is compatible with most solvent, Eco-solvent, UV-Cured and HP Latex.

PRODUCT	SIZE	TYPE	PRICE
VM-Chalkboard	1520mm x 6m	Sample Kit (30SE)	$363.02
VM-Chalkboard	1520mm x 1m	Meter	$65.63
VM-Chalkboard	1520mm x 30m	Full Roll	$1,575.00
VM-Dryerase	1220mm x 6m	Sample Kit (30SE)	$386.68
VM-Dryerase	1220mm x 1m	Meter	$70.42
VM-Dryerase	1220mm x 30m	Full Roll	$1,690.08
VM-Ecoten	1220mm x 6m	Sample Kit (30SE)	$199.69
VM-Ecoten	1220mm x 1m	Meter	$32.55
VM-Ecoten	1220mm x 30m	Full Roll	$781.20

VM-CHALK

VM-Chalk is available in both coloured and plain white chalk and are packs of 12.

VM-ERASER

Visual Magnetic erase, the perfect addition when you are ordering the VM-DRYerase vinyl.

PRODUCT	SIZE	TYPE	PRICE
VM-Chalk	Pack of 12	White Chalk	$3.11
VM-Chalk	Pack of 12	Coloured Chalk	$4.42
VM-Eraser	3 x 5 x1	Eraser	$2.85

CONECTBOND

Conectbond by Almaxco is a quality 3mm aluminium composite panel with a 0.2mm aluminium skin and a 90% gloss Polyester XT paint coating. Our paint coating is manufactured using Beckers & PPG paint coatings to ensure an outstanding paint finish that is smooth. Conectbond white/silver is matt on both sides, making this panel perfect for either half or full wraps.
Ideal for:
- Can be used for both self adhesive vinyl and digital wraps
- Internal and external signage
- Conectbond has a lifespan of up to 5 years externally.

CONECTBOND LITE

Conectbond Lite is now available in 3mm. The panel has a 0.15mm skin finish, one side is matt white this can be printed on with most UV machines and the other side is raw. ONLY WHILST STOCKS LAST
Ideal for:
- Can be used for digital prints
- Internal and short term external signage
- Conectbond lite has a lifespan of up to 2 years

COLORBOND

Colorbond is 0.55mm thick sign white sheet of metal.
Ideal for:
- External signage
- Internal signage
- Colorbond has a lifespan of up to 25 years

PRODUCT	SIZE	TYPE	1 SHEET	10 SHEETS	20 SHEETS	50 SHEETS

MULTIPANEL

MultiPanel is a high density polyurethane panel that is strong, lightweight, waterproof and environmental friendly. MultiPanel can be used as an alternative to most traditional building materials such as, PVC panels and composite panel. Please Note, MultiPanel is an order in only product however it is readily available
Ideal for:
• Multipanel is available from 8mm to 30mm thick
• Can be used for both internal and external application
• Extremely durable for up to 10 years

FLUTEBOARD

Flute Board is an extremely versatile and durable. The surface of flute board is generally not affected by oils, solvents or water, therefore can be used externally as well. We only sell Australian made flute board and there can be a slight detection of the lines when looking at the board.
Ideal for:
Substitute for poster board or card
• Internal and short tem external
• Australian Made

TAUTFLEX AIR

Tautflex Air is a waterbase airbrushing paint. The Tautflex air has been developed with a superior adhesion to both flexible and rigid surfaces such as banner material and metal. Although many airbrushing paints have a tendency to clog, Tautflex air has been manufactured with a new tip flow formula to help minimise the problem and allow the operator to use an airbrush at low pressure. Tautflex air is easy to use, dries quickly and is waterproof. Once you have finished for extra protection Tautflex air UV Clear can be added

TAUTFLEX

Tautflex is a waterbase scratch resistant gloss finish paint that been developed with a superior adhesion although it can be used on rigid surfaces, its superior adhesion bond is best demonstrated on a flexible surface such as banner material and computer cut vinyl. Tautflex is available in a wide range of standard colours and can be colour matched to most colours; it is available in 4Lt, 1 Lt and 500mls.

TAUTFLEX FLUORESCENT

Tautflex fluorescent is a waterbase scratch resistant gloss finish paint that been developed with a superior adhesion although it can be used on rigid surfaces, its superior adhesion bond is best demonstrated on a flexible surface such as banner material and computer cut vinyl.

TAUTFLEX MATTING AGENT

Tautflex matting agent can be added to any of the tautflex range to turn the paint from a gloss finish to a matt finish.

The Roland blade holder is designed to fit all roland cutter machines and helps control the pressure and depth of the blade.

ROLAND SOLVENT CLEANING KIT

Roland solvent cleaning kit includes a set of roland cleaning stick and a bottle or cleaning solvent.

CLEANING STICKS

cleaning stick have been designed to be used in conjunction with the roland cleaning solvent without damaging your roland machine.

ROLAND SOLVENT CLEANING LIQUID

Roland Solvent Cleaning Liquid for cleaning mild solvent printers. 500ml.

PRODUCT	SIZE	TYPE	PRICE
Roland blade holder	N/A	Plastic	$75.00
Roland blade holder	N/A	Metal	$95.00
Roland cleaning kti	100ml and 10 sticks (SL)	Cleaning	$65.00
Cleaning sticks	Pack of 10 sticks	Cleaning	$20.00
Roland solvent cleaning liquid	500ml (SL)	Cleaning	$135.00

ROLAND STANDARD BLADE

Roland Standard blade is for standard vinyl, this is the blade that comes standard with the Roland GX 24 Vinyl Cutter. You should interchange blades especially when cutting reflective, flock and other thicker products to avoid wearing out your blade too quickly.
Ideal for:
- 0.25 Offset
- 50 degree angle
- Model number ZECU- 1005

ROLAND SMALL CHARACTER BLADE

The Roland Small Character Blade can be used for both standard vinyls and applications where text is quite small. The angle of the blade allows sharp cutting to ensure easy weeding every time. One of our best sellers
Details:
- 0.175 offset
- 45 degree angle
- Model Number ZECU - 3071

ROLAND SANDBLAST BLADE

The Roland Sandblast blade can be used for both standard vinyl, sandblast and cardboard material.
Details:
- 0.5 offset
- 32 degree angle
- Model Number ZECU - 3050

ROLAND FINE SANDBLAST BLADE

The Roland Fine Sandblast blade can be used for both standard vinyl, sandblast and cardboard material. This blade has beed specifically designed for small and fine charaters and lettering with thicker materials
Details:
- 0.25 Offset
- 17 degree angle
- Model Number ZECU - 1715

ROLAND REFLECTIVE BLADE

The Roland Reflective blade are designed to take extra pressure and have the ability to cut hard materials such as class 2 reflective vinyl.
Details:
- 0.25 offset
- 50 degree angle
- Model number ZECU - 5025

PRODUCT	CODE	TYPE	SINGLE BLADE	PACK OF BLADES
Roland standard blade	ZECU-1005	Standard	$35.70	$125.00 pack of 5

Price List

CRYSTAL TEK VINYL OFF

Crystal Tek Vinyl Off is a ready to use product that has been designed to quickly and easily remove vinyl from most surfaces. Vinyl Off had been designed to remove both the vinyl and the adhesive at the same time and can cut the time it takes to remove vinyl by more the half.

CRYSTAL TEK ADHESIVE OFF

Crystal Tek Adhesive Off is a ready to use product designed to quickly and easily remove adhesive from most surfaces. Adhesive can be left behind if the vinyl was removed without using Crystal Tek products.

CRYSTAL TEK GHOST OFF

Crystal Tek Ghost Off is a ready to use product designed to quickly and easily remove ghosting from most surface. Ghosting appears when previous media has not been removed completely. Ghost off can also be used as a surface prep.

CRYSTAL TEK REFLECTIVE OFF

Crystal Tek Reflective Off is a ready to use product designed to quickly and easily remove reflective from most surfaces. Reflective Off is the strongest of all the Crystal Tek products it has been designed to not only aid in the removal of reflective but also metallized vinyl from non-porous substrates. Ghost Off has been designed to remove both the reflective and the adhesive in one go.

AVERY PRO FLEXIBLE FELT TIP RED

A soft felt tip applicator great for those conformable areas
Ideal for:

AVERY PRO FELT TIP BLUE

A stiffer felt tip applicator that works well for standard and digital signage

AVERY PRO XL FELT TIP BLUE

A stiffer felt tip applicator ideal for large graphic application

3M GOLD SQUEEGEE

The gold squeegee definitely a favourite in the industry when it comes to a median of soft and hard compound squeegees.

PRODUCT	SIZE	TYPE	PRODUCT CODE	PRICE
Avery Pro Flexible Felt Tip Squeegee	100mm	Felt tip flexible	SQ-PF	$4.22
Avery Pro Felt Tip Squeegee	100mm	Felt tip	SQ-F1	$4.22
Avery Pro XL Felt Tip Squeegee	130mm	Large felt tip	SQ-PX	$5.91
3M Gold Squeegee	100mm	Medium	3MGS	$6.00

CONECT GOLD SQUEEGEE

The gold squeegee definitely a favourite in the industry when it comes to a median of soft and hard compound squeegees.

CONECT SILVER SQUEEGEE

A basic squeegee with median of soft and hard compound squeegees. The silver squeegee is slightly harder than the gold squeegee.

CONECT FELT TIP SQUEEGEE BLUE

A basic squeegee with stiff rigidity that causes a stable application (Ideal for standard to large graphic applications)

CONECT BLUE SQUEEGEE

A basic squeegee with stiff rigidity that causes a stable application, this squeegee does not contain a felt tip. (Ideal for standard graphic applications)

PRODUCT	SIZE	TYPE	PRODUCT CODE	PRICE
Conect Gold Squeegee	100mm	Medium/Soft	SQCG4	$4.50
Conect Silver Squeegee	100mm	Medium	SQCS4	$4.50
Conect Felt Tip Squeegee	150mm	Felt Tip	SQCFTB6	$5.00
Conect Blue Squeegee	100mm	Hard	SQCB4	$2.50

CONECT DIGITAL SQUEEGEE

This squeegee's purpose is purely for digital media due to the Teflon coating making it a lot more forgiving to use on non laminated graphics.

CONECT YELLOW SQUEEGEE

One of the strongest squeegees to flex, it is also ideal for large and small applications, this squeegee does not contain a felt tip. (Ideal for standard graphic applications)

CONECT FELT BLOCK

Very good when application of digital media that hasn't been over laminated

HEAVY DUTY FELT TIP

A heavy duty squeegee with stiff rigidity that causes a stable application ideal for ribbed profiles and large graphic applications

PRODUCT	SIZE	TYPE	PRODUCT CODE	PRICE
Conect Digital Squeegee	100mm	Teflon	SQCDW4	$5.00
Conect Yellow Squeegee	100mm	Hard	SQCY4	$2.50
Conect Yellow Squeegee	150mm	Hard	SQCY6	$3.50
Conect Felt Block	100mm	Soft	CPFB	$7.35
Conect Heavy Duty	100mm	Heavy duty	SQCHDFT4	$4.50
Conect Heavy Duty	150mm	Heavy duty	SQCHDFT6	$6.00

AVERY TOOL KIT KNIFE

This knife is pre equipped with a sharp 30 degree angle blade. It is a sleek but strong knife with a metal casing, ensuring that it makes an impression to last.

HOBBY KNIFE

This is an easy to use exact knife with a simple twist grip to ensure the blade is nice and snug which wont loosen up to cause any dramas, a solid knife to work with on fiddly projects.

OLFA L1 KNIFE

A large knife but an all-rounder with a plastic casing and a robust handle, it also includes a side twist lock to ensure the tightest grip to the blade possible. It can also take 18mm blades.

OLFA S-L1 KNIFE

A large knife with great versatility that has a plastic casing with a lower profile grip, making it very effective in many situations. Included it has an auto lock mechanism and can take 18mm blades.

DIPLOMAT A16 KNIFE

KNIFELESS TAPE FINISH LINE

Knifeless Finish Line Tape is designed for cutting graphic film without the use of a knife.
Making trimming and applying the perfect curves to any surface easy, all without the damage to any surface.

3 basic steps on using the Knifeless tape range:
1. Place the film on top of the cutting tape, leaving 3-4 inches of slack on the end
2. Pull the filament up through the film, clean cutting into the forms produced
3. Leaving a cut, as though it was done by a knife, but without the risk to the surface

*Our tapes come in 50MT rolls

KNIFELESS TAPE DESIGN LINE

Knifeless Tape Design Line, is the latest in Knifeless technology, which allows the user to produce quality cuts equal to a plotter.

What's different:
• Made to stretch, both the tape and the filament
• Stretching the tape, allows the tape to easily curve in any direction
• Stretching the tape, also will create straight lines
• Not a replacement for Finish Line

KNIFELESS TAPE BRIDGE LINE

Perfect for cutting out graphic film without using a knife and for bridging wide gaps such as, between doors and rubber seals, etc.
Never have to worry about damaging anything again, by cutting with a knife.

Knifeless Bridge Line tape can be used in 4 easy steps:

1. Apply knifeless tape
2. Apply desired film on top
3. Pull up the filament up through the film, giving a smooth clean cut finish
4. And remove residual tape

*Only available in 50MT roll lengths.

PRODUCT	SIZE	TYPE	PRODUCT CODE	PRICE
Knifeless Tape Finish Line	50m	Knifeless Tape	KTFL	$40.90
