

Adjustable Beds

## Adjustable Beds

# Bluesky Healthcare - Enjoy a better quality of life.

Since 2001, Bluesky Healthcare has been a leading provider of quality and stylish mobility solutions, dedicated to helping Senior Australian's enjoy a better quality of life.

Our extensive range of customisable mobility products are specifically designed and manufactured to help you maintain your independence while at the same time giving you a safer enjoyment of your home.

## Adjustable Beds

Bluesky Healthcare manufactures a range of electrically adjustable beds that have been engineered to provide comfort and relief from a variety of ailments and to have the look and feel of an everyday ensemble bed.

All Bluesky Healthcare beds are made to order on site and you are involved in the design process. Work with one of our healthcare consultants to firstly choose your bed's size - from small single, standard single, king single, double, queen, king, split queen or split king. Secondly, decide on an innerspring, latex or pressure care mattress. Thirdly, match your needs to the bed's features of head lift, leg lift, high-low and massage. Then finally select a timber surround or better still provide your own and we will build the bed to suit it.

## Bodyline Singles

Elevate the head of the bed to ease breathing and relieve the symptoms of asthma, hay fever, emphysema, hiatus hernia and reflux.

## Bodyline Splits

Elevate the leg of the bed to improve circulation and relieve the symptoms of sciatica, lower back pain, varicose veins and fluid retention.

## Bodyline Doubles

## Comfaline Singles

## Bodyline Hi Lo

Turn on the sonic variable massage system to increase blood flow, relax aching muscles and relieve the pain of arthritis, rheumatism and osteoporosis.

Use the high low feature to assist the ease of getting in and out of bed for those with restricted mobility from the likes of MS, Parkinson's, MND and strokes.

## Optional extras

Single bed timber frame

Double bed timber frame

Side rails

Massage Bed Control

Standard Bed Control

## Service and Experience You Can Trust

Bluesky Healthcare's strength is our staff. No matter your requirements, our friendly and caring healthcare consultants have the experience and knowledge to help design the right product for your comfort and health needs based on our unique 10-point healthcare assessment.

Our trained consultants take the time to talk with you to assess your needs and find out exactly how a Bluesky Healthcare product can offer you the maximum health benefit. Our fully equipped mobile showrooms can bring any of our products to your home for a relaxed and obligation-free consultation, demonstration and trial - at no charge.

## Servicing and Warranty

Bluesky Healthcare offers a comprehensive warranty programme across our complete range. In addition to the standard 12-month warranty, you can also opt for a 5-year extended warranty at an annual fee of just \$99; as part of our preventative maintenance programme. This extended 5-year warranty covers annual servicing plus repairs and maintenance, ensuring that your Adjustable Bed continues to operate perfectly, giving you total peace of mind.
