

Environmental Policy

Swan Towing Services Pty Ltd ('Swan Towing') recognizes like all organizations, that business activities, products and services impact the environment.

Swan Towing is committed to managing its activities and services that could potentially harm the environment in a responsible and effective way.

Swan Towing shall also continually endeavour to improve their environmental performance, in line with other business objectives. In seeking to minimize harmful environmental impacts associated with our activities we shall:

- As a minimum standard, seek to comply with all relevant environmental legislation and other requirements;
- Seek to prevent pollution by proper treatment and management of wastes arising from our activities and services, whether they are released to air, land or water;
- Manage our resource consumption in such a manner to minimize unnecessary or avoidable use and waste.

This document is communicated to all employees and those working on behalf of Swan Towing, and is made available to the public on request. It shall be the responsibility of all employees to ensure that the policy is applied at all times.
