i

SP Cleaner - Benchtops

S-P Cleaner is an excellent neutral PH cleaner for everyday cleaning of your stone benchtops. It will clean dirt and grime off the stone and leave benchtops feeling fresh, smooth and sparkling. It will also reduce streaking which is a common concern with glossy natural stone surfaces.

Each time S-P Cleaner is used on the benchtop surface the sealer is conditioned helping keep the sealer in tact for a full 15 years when sealed by The Marble Man. S-P Cleaner may be used on a daily basis but should be used a minimum of once per week to maintain the sealer. It is the most economical cleaner on the market costing around 50 cents per spray bottle.

INSTRUCTIONS FOR USE

Benchtops

- Step 1** Mix 1 part S-P Cleaner to 40 parts water into a household spray bottle.
- Step 2** Spray the mixed S-P Cleaner onto the benchtop (Approximately 1 spray per $\frac{1}{2}$ m²). Too much product will cause streaking.
- Step 3** Using a paper towel wipe the surface dry.
DO NOT use scourers or wet sponges.

Ideally all natural stone benchtops should be cleaned and sealed first by a professional to prevent staining S-P Cleaner for the first time, to prepare the surface for effective regular cleaning.
