

We Have All Your Needs Covered

Fully Auto Start / Stop Via Programmable Timer

Why Do You Need This ?

Well at 3.5 - 4.5lt per hour running cost on some units that's 42lt's extra a day

You can save at \$1.55 + a ltr that's \$65.00 a day you will save

if no one is on site on weekends to shut them down, or you have to pay overtime

For someone to travel to site to stop & start ea. unit it all adds up \$\$\$.

We don't claim to be the cheapest but sometimes cheapest isn't always the cheapest
Over the life of a project. (Our Auto Start/Stop Units Use 2.4lt's Per Hour Running)

Auto Start / Stop
