AN AUSSIE ICON

Since the first Jayco Camper Trailer rolled off the line in 1975, we've built over 75,000 quality Camper Trailers. After over 47 years of research and development, the Jayco Camper Trailer may look a little different but the idea is still the same: An affordable, quality built RV that's small to tow and big to live in.

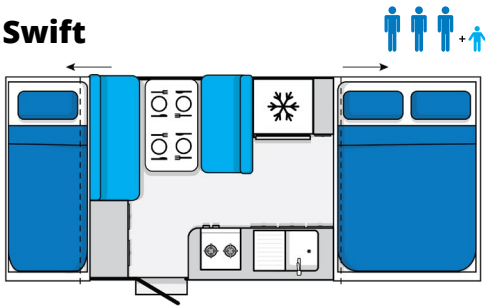

MY23 Swan Camper Trailer

Enjoy a seamless transition from the comforts of home to memories on the road with all the practical necessities a Jayco Camper Trailer provides. With neutral tones and strong eurostyle furniture, each Jayco Camper Trailer is built on our exclusive aluminum frame for stronger, more durable furniture; the components are screwed together, not stapled; and all fabrics are commercial-grade and highly durable.

† Jayco Outback upgrade available on Swift, Penguin, Eagle and Swan models only

NOTE: A Jayco Outback upgrade allows towing on limited unsealed roads. Always take care to prepare for unsealed road usage by understanding the road conditions and the associated towing requirements. We also recommend reading your Jayco Owner's Handbook for more information about warranty terms and conditions.

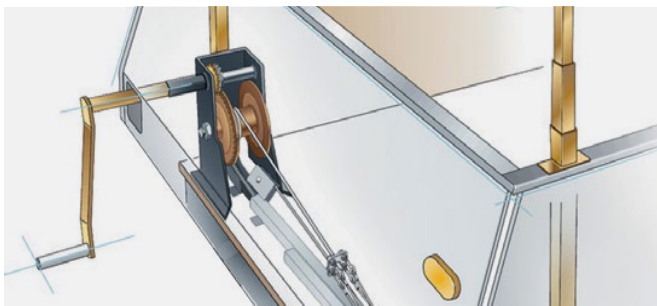

CONSTRUCTION

YOU CAN RELY ON

JTECH 2.0 INDEPENDENT COIL SUSPENSION

The specially designed, high-performance JTECH 2.0 Suspension (standard on Outback Models) delivers greater stability, a smoother ride, exceptional handling and increased ground clearance.

FULLY ENCLOSED ROOF LIFTER SYSTEM

Jayco uses tubular anodised lifter posts with smooth walls that will not chaff or soil the tent. Nylon bushes reduce friction and keep the roof more stable when raised. The roof lifter system is fully enclosed above the floor to eliminate the chance of damage from road debris or the weather. Steel pulleys with built-in bearings make the cables track accurately and won't wear out.

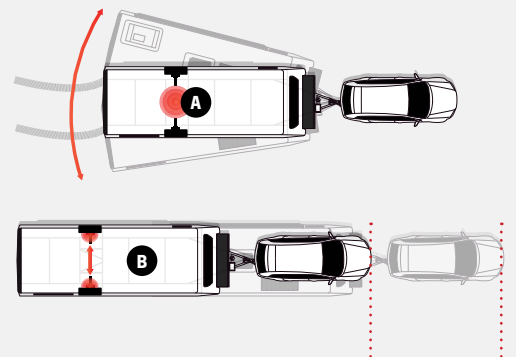

SAFETY

YOU CAN TRUST

STOP WITH CONFIDENCE

Electric brakes proportionally slow your RV as your car slows meaning shorter stopping distance and reduced risk of skids.

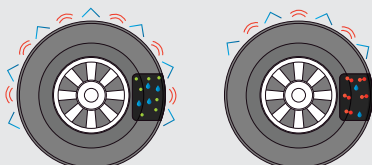

AIR FILLED TYRE

NITROGEN FILLED TYRE

LESS BLOWOUTS

Nitrogen filled tyres help to maintain a constant tyre pressure even in hotter weather, reducing the risk of blowouts.

Humidity Pressurised air Nitrogen Pressure leaks Heat

STOP WITH CONFIDENCE

Electric brakes proportionally slow your RV as your car slows meaning shorter stopping distance and reduced risk of skids.
