PLUMBING ⚡ ELECTRICAL

Fast service that goes the extra mile

A pipe burst in my kitchen wall. Ryan from Metropolitan came promptly, noted that the water pressure was too high (after recent watermain works), fitted a flow restricter & fixed the pipes really quickly.

Then Shane fixed the brick wall and painted it so it looked good as new. He even went the extra mile painting another section of wall so the house looks better than before!

Great service!

Simon arrived on time and was extremely professional, well mannered and friendly.

He diagnosed the problem in minutes, explained it and carried out the job perfectly and in an extremely timely manner, would highly recommend this company!

Exceptional Service!

I was very impressed and grateful for the prompt and professional service provided by Metropolitan. In particular, I appreciated the various courses of action and detailed explanations provided, and the excellent listening skills, courtesy and good humor displayed throughout. I would definitely recommend Metropolitan to all my friends.

METROPOLITAN
PLUMBING + ELECTRICAL = AIR CON

Our vision

We strive to only hire the best plumbers, electricians and air conditioning technicians who live up to our high quality assurance standards. We have a strong focus on premium quality service and a commitment to customer service excellence, earning us a spot as a trusted and well-renowned leader within the industry.

At Metropolitan we live to solve your problems. Our goal is to provide Australia with reliable, clean and friendly utility services, where the customer comes first, without exception. Since the very beginning, it has been our mission to tear away the typical tradie stigma. We can guarantee that we will arrive on time and we will be clean, tidy and professional tradesmen, that will always respect you, your family and your home.
