

**WESTERN DISTRICT  
ELECTRICAL SERVICES**

*All aspects of Electrical Installations, Maintenance and Repairs*

Dear

We have pleasure in attaching a quotation for the Installation of a new Grid Connected Solar System.

The parts we use for your Installation are of the highest quality. The Inverters are German made and I personally believe to be the best on the market – we will not compromise on quality products.

We offer a 10 year workmanship warranty and 25 year performance guarantee on the Panels we use.

We believe in installing a superior system that will stand the test of time and we ensure that our team of seven experienced tradesmen consisting of three fully qualified A Grade Electricians and four Apprentice Electricians will deliver excellent workmanship.

If there is anything further we can assist you with, please feel free to contact me as per the phone number below or at [wayne@wdelectrical.com.au](mailto:wayne@wdelectrical.com.au)

Regards,

Wayne Davies
