Mint Floors & Shutters

FLOORS / SHUTTERS / TIMBER

TIMBER FLOORS

The preferred choice!

Timber is the most environmentally responsible of all building products. It is natural, renewable, sustainable, and most importantly it stores carbon particles for life.

Mint offers a range of native Australian & imported hardwood timber species available in many sizes and grades. Select from Strip Tongue & Groove flooring, Parquetry blocks, and 12mm overlay flooring.

Choose from a range of different stains and finishes to suit your lifestyle.

BAMBOO FLOORS

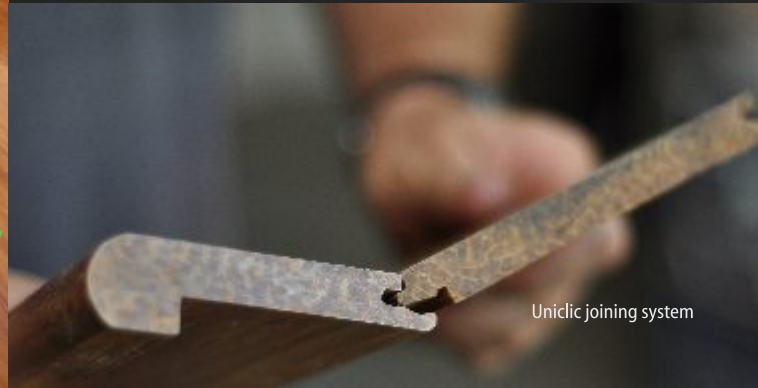

Choose the Eco friendly flooring option

Featuring high strength and durability, our bamboo is sourced from dedicated plantations that are regrown in 5 to 6 year cycles.

Our bamboo floors hold GECA (Green Environmental Choice Australia) and FSC (Forest Stewardship Council) certifications.

Dent resistant, insect resistant, and easy to clean and maintain, our bamboo flooring uses the best Uniclic joining system, ensuring quick, easy and versatile installation.

Available in a wide range of colours and styles, bamboo is everything you need for peace of mind, with an affordable price tag!

Uniclic joining system

Attractive and extremely durable

Laminate is an affordable and stylish floorcovering with a low maintenance, scratch & dent resistant surface, impregnated with Melamine for additional durability.

We offer a wide range of designer colours and styles to suit your project.

LAMINATE FLOORS

ENGINEERED FLOORS

Attractive and Extremely Durable

Engineered Flooring is perfect for use with acoustic insulation in apartments and for fast installation. The hardwood top layer is treated with 7 coats of scratch resistant UV cured coating. This avoids the mess and fumes of sanding and finishing on site. It can also be re-sanded and coated a few times over in the future.

Our range of Engineered Flooring is 100% FSC certified, with a lifetime structural warranty and 20 years warranty on the finish wear layer. We have a great range of décor colours and sizes to choose from.

SHUTTERS & BLINDS

A choice for different tastes

Mint Floors & Shutters carry a quality range of internal and external plantation shutters and blinds, including long lasting aluminium shutters for outdoors, affordable composite shutters for indoors, and top of the range custom cedar shutters for that special project.

Modern roller blinds and a range of venetians are also available.

An invitation for comfort

High quality carpet is an inviting choice of flooring for your home, particularly in bedrooms. At Mint Floors we have a large selection of carpet finishes including wool, nylon and polypropylene.

We supply and install so contact us now for a free measure & quote.

CARPETS & VINYL

Passionate about floors...and our customers!

At Mint Floors and Shutters we value the outcome of your project. We combine the best quality products, tradesmen and project management team to provide you with a quality finish to your home in a professional manner.

Our dedicated team work with you right from the start, through to the finish of your project. Throughout the planning, measuring, installing & finishing process, we answer all of your questions along the way. So you can be sure to deal with someone who can understand your needs and deliver the best result possible.
