

ROOF RESTORATION SPECIALISTS

Don't be stuck in the next storm!

Your roof is the most important element of your house and it protects your family from all types of unpredicted weather conditions. Big River Roofing are specialists in all types of roofing from colourbond, teracotta tiles, concrete tiles roof replacement and full roof restorations. We can fully restore your current roof or in some cases we can do a full repaint or repair when replacement isn't necessary.

Most roofing companies can only offer roof replacements and they have no experience in the tile roof industry. We are a CSR Monier Roofing specialist and we have qualified Roof Tilers and Roof Plumbers on staff. This ensures that Big River Roofing is your one and only full roofing specialist in all roofing aspects.

We only use the best products from CSR Monier — an Australian business with over 100 years in the roof tile business.
