

Moving bulk commodity and need to know your weight?

Speak to **Country Scale & Equipment Shepparton**, your regional supplier of quality engineered and Australian manufactured METTLER TOLEDO weighbridges.

Servicing regional Victoria and southern New South Wales, our team is qualified to supply and install new weighbridges of varying sizes to meet your needs... from 10m axle weighers right up to 40m Road-Train capable weighbridges.

We also have years of experience in repairing and servicing existing weighbridges of all types. Our fully fitted out test truck enables us to calibrate, test and verify existing weighbridges as well as new ones.

We are a National Measurement Institute (NMI) licensee and a member of the Weighing Industry Association of Australia (WIAA). A partnership with a reputable scale service team can help any scale owner get the most out of their scales!

Don't estimate the weight of your commodity. Ensure compliance with the Chain of Responsibility with a quality installed and serviced weighbridge from Country Scale & Equipment Shepparton.
