GAME are leaders in traffic management and grounds maintenance in regional Victoria and southern NSW. We have a deep commitment to our community and support programs that help thousands of youth in our area to stay in school, get opportunities for work and prepare for their future.

GAME TRAFFIC & CONTRACTING is highly visible across regional Victoria and NSW, due to their distinctive "Big Green Diamond", but what many don't know, is that GAME is recognised as one of Australia's leading, regionally based social enterprises.

Being a social enterprise means that GAME is able to offer their customers access to a quality, compliant, commercially competitive service, whilst also providing them an opportunity to be part of something much bigger...making a positive long term social impact, in the region and beyond!

Geared4Careers is GAME's flagship employment program which is fully funded through GAME's commercial activities.

The program is embedded in local secondary schools and is assisting youth, in the region, to remain engaged in school and transition to further education or employment.

Commencing in 2011 with just 30 registered participants, Geared4Careers now supports 1550 regional youth, from all backgrounds across 14 secondary school campuses.

Contact us for more information about how GAME can assist with social procurement targets on your next major project.

“Would like to pass on our gratitude to the game traffic controllers. Our site foreman expressed the up-most respect for the professionalism and maturity shown towards their work. Their ability in managing traffic flow has ensured that NECC staff and our subcontractors have been able to conduct the works in a timely and safe manner. They have been prompt in arriving to site and have worked well with our crew.

- North East Civil Construction

Our Services

Our Resources

Due to our outstanding customer service, GAME Traffic & Contracting have grown significantly over the past decade. Our in-house resources ensure we have the capability to deliver on all large scale projects in Central, Northern & North East Victoria and Southern NSW.

- ◆ Over 170 qualified and experienced staff
- ◆ 120 Traffic Utilities / Trucks
- ◆ 100+ VMS Boards (including Radar technology)
- ◆ 14 Arrow Boards
- ◆ 7 Truck Mounted Attenuators (TMA)
- ◆ 20 Sets of Portable Traffic Lights
- ◆ 2 Light Towers
- ◆ 20km + Temporary Fencing
- ◆ 5000+ Cones & Bollards
- ◆ 10000+ Multi Message Signs

The speed radar boards have been very useful. They have been a great addition to our sites and seem to get the attention of the driver more effectively. You can certainly notice drivers slowing down on approach to the boards. The data collection feature is also great because we can statistically see how drivers are conforming to our reduced speed limits and provide feedback to the crew.

- Downer North Eastern Maintenance Alliance (NEMA)

BORDER CLOSURE 2020/21

When the VIC/NSW border closure was announced at the end of 2020, with just 24 hours' notice GAME successfully activated 16 separate sites along the border, from Barmah in the west to Towong in the east, including checkpoints on the Hume Fwy and Lincoln Causeway,. Working closely with VicRoads & Victoria Police the operation involved producing site specific TGS's, deploying 42 VMS boards, operating two TMA's and staffing sites with qualified Traffic Controllers 24/7 over the closure period.
