

CLASSIC SKYLIGHT

Regent Classics provide an affordable traditional skylight, with an attractive low profile. A skylight which will compliment your home's architectural style. Also available as a flexible shaft kit.

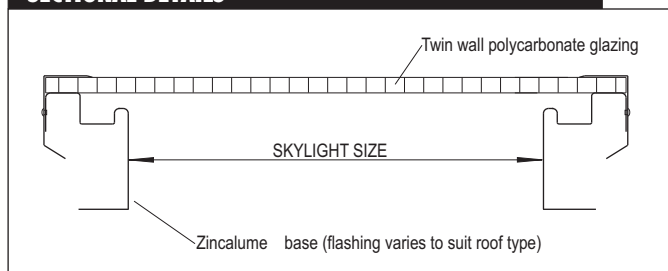

MATERIALS

Regent Classics are constructed with a press formed Zinalume base and Twin Wall Polycarbonate glazing (uv and hail resistant). Non-standard bases are available (in stainless steel, aluminum, copper and galvanised) to meet individual customer requirements (P.O.A.). For further information, consult your local Regent Distributor for advice and a quote.

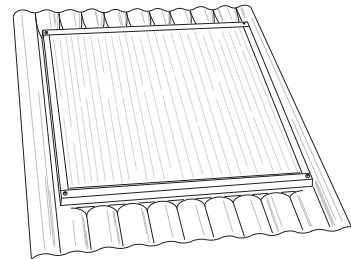

AVAILABLE FOR MOST ROOF TYPES

Regent Skylights can be manufactured to suit most roof types. Our standard stock will suit the popular types of roofs such as corrugated iron, tile and metal deck. In situations that non-standard bases are required (ie. when a hob is to be used), special fabricated bases can be made. Units are provided fully flashed requiring no additional plumbing, resulting in a time saving installation.
