We look forward to working with you improving
your home and lifestyle in the near future.

John R. Dean Constructions Pty Ltd is a construction company founded by John R Dean in 1976. Since the conception of the company the business has grown and evolved into the successful organisation it is today.

Anthony Dean (son of John Dean) took on his apprenticeship with the company in 1990 and following in his father's footsteps now owns and operates the business today.

As specialists in design and construction we offer a complete package tailored to suit your individual needs. Our personalised service and in-house design and drafting service ensure that we are the best choice for your project. We specialise in all aspects of residential alterations and extensions, including first floor additions, renovations, outdoor entertainment areas, kitchen & bathrooms, granny flats and exclusive homes.

We are proud to announce our Green Smart qualification and our dedication to sustainable eco-friendly building, design and construction. Where possible we use renewable resources and recycled building materials within our design considerations and material selection. This improves the energy efficiency and workability of your home and will reduce the overall running costs.

"Environmental Sustainability Doesn't Cost The Earth"

*Contact John R Dean Constructions Pty Ltd before the due date and receive an obligation free consultation and a \$200.00 voucher towards the drafting of your concept plans. Discount applies to drafting proposals accepted within the dates of this offer only. Offer is valid until the date of

"I honestly have not had an experience like this before and you have restored my faith in builders!"

Bev & Ron, Parramatta

"Anthony and his team have been professional yet approachable, helpful and always willing (and able) to work with us to get you the best possible result."

Kaliopi, Petersham
