AUTO ELECTRA

Premier Automotive has an enviable reputation as a leading electrical and electronic diagnostic and repair centre.

This reputation is sustained and enhanced by a team of technicians who are not only highly skilled, but involve themselves in strong national trade associations and networks, and attend training events as often as possible.

As well as professional auto electrical service and repairs Premier Automotive offers full mechanical and vehicle servicing as well.

This combination of services provides the customer convenience of a one-stop shop, offering the full range of vehicle service and repair at the one location.

All makes of vehicles are catered for, and a national warranty is issued with all repairs.

The electronic demands of the modern vehicle demand a good and reliable battery and for that reason, Premier Automotive keeps a full range of quality Century batteries for all makes and models.

No repair is too small or too large, from a blown bulb to an alternator or starter motor repair, or from a fuel injection issue to the fitting of accessories.

Premier Automotive stocks a wide range of electrical accessories including reversing sensors, 4WD accessories, batteries for all applications, reversing cameras, auxiliary battery systems for 4WD or caravans, driving lights and much more.
