Nexion® Keyless Entry Lockset - Vision

Description

This stylish lockset combines the security of an automatic deadlatch with added safety features, plus the convenience of keyless operation using the Q-Key remote control.

Designed and manufactured to the highest quality standard, the Lockwood Nexion range has set the benchmark for safety, security and style. The Nexion range of deadlatches offers the ultimate protection for your home and family.

Remote Operation Convenience

- 3 meter range keyless operation with Q-Key remote control
- Use same remote with multiple Nexion Keyless Entry Locksets
- Up to 50 Q-Key remotes can be programmed
- Provides audio and visual indication of lock activation and deactivation

Key Override

Mechanical override key and low battery indicator system.

001Touch™ Keyless Digital Deadlatch

Description

For more than seven decades Lockwood has been securing homes in Australia. Today Lockwood is proud to launch the future of keyless locking. The 001Touch™ combines a stylish digital touch screen keypad with the security of the iconic Lockwood 001® Deadlatch. The simple convenience of using a pin code means you never have to carry keys again!

Illuminated Touchscreen Keypad

The touch screen keypad has no mechanical buttons which means no trace of your secret pin code.

Pin Code or Key Card

Choose the convenience of a pin code or key card. One master pin code will manage up to twenty user pin codes. Up to 20 key cards can also be programmed.

Cryptic Code Function

Prevent others from identifying your pin code during access. The cryptic code function confuses the onlooker but at the same time allows you to still gain entry.

Product Details

001Touch Chrome	001T-1K1CPDP
Backset	60mm
Battery Cover	High quality ABS plastic
Door Thickness	32mm to 50mm
Finishes	Chrome Plate (CP)
Keycard	RFKC10
Keyfob	RFKF10
Key Pad Case	High purity zinc alloy
Latch	Stainless steel 18mm projection

Retrofitable

Replace your existing 001 Deadlatch™.

001Touch™ Keyless Digital Deadlatch

Secure Mode

Secure mode gives the option to lock the 001Touch™ internally with a key. This secures the door on both sides with the ability to unlock the door with a pin code or key card externally.

User Code that Expires

A temporary code can be programmed to last from three hours to two weeks. This is ideal when a tradesman needs access for a few hours or when a neighbour is house sitting.

Visual Guide for Programming

For added convenience, an illuminated guide will assist in the programming of key features.

Low Power Consumption

Four standard AA batteries will unlock a door up to 10,000 times. A warning light will appear when the battery level reaches less than 30%.

Battery Check Function

The battery level can be checked without removing the batteries. A simple sequence reveals the battery level between 30%–100%.

Smart Memory

The settings, codes and key cards will remain programmed in the lock in the event the batteries are depleted.

Emergency Battery Connection

The settings, codes and key cards will remain programmed in the lock in the event the batteries are depleted.

001Touch™ Keyless Digital Deadlatch

Emergency Battery Connection
In the event your batteries are depleted.

Safety Mode
Securely locked from outside and free from inside.

Batteries Included

Secure Mode
Securely locked from both inside and outside. For when nobody is home.

Passage Mode
Free to enter from outside and free to exit from inside.

Deadlatch Bolt
Stainless steel 18mm projection.

2 Keys Included
Can be keyed alike to other Lockwood door locks.

Keyless Digital Deadbolt

Description

No Keys? No Worries. The Lockwood Digital Deadbolt lets you unlock your front door by entering a simple code.

Ideal for use on new doors or as a replacement on an existing door lock on your home, the Keyless Digital Deadbolt is also suitable for internal and light commercial doors such as storerooms and shop fronts.

Illuminated touch screen keypad

The touch screen keypad has no mechanical buttons which means no trace of your secret pin code. One master pin code will manage up to twenty user pin codes.

Cryptic code function

Prevent others from identifying your pin code during access. The cryptic code function confuses the onlooker but at the same time allows you to still gain entry.

Visual guide for programming

For added convenience, an illuminated guide will assist in the programming of your Digital Deadbolt.

Product Details

Backset	Adjustable 60mm or 70mm
Back Plate	Hardened steel
Bolt	Zinc alloy 25mm projection
Description	Lockwood Keyless Digital Deadbolt Touchpad
External thick doors	Rubber weather resistant gasket (37mm - 50mm)
Finish	Powder Coated Silver (SIL)
Front & Back Escutcheon	High purity zinc alloy
Installation	25mm latch hole and 54mm lock hole
Internal thin doors	Plastic gasket (32mm-36mm)
Part Number	LEDDB/SCYL/SIL

Retrofitable

Fits majority of doors with 54mm hole.

Keyless Digital Deadbolt

Low power consumption

Four AA alkaline batteries will unlock a door for approximately 12 months if used 10 times per day. A battery icon will begin flashing when the battery level reaches less than 30%.

Emergency key override

In the event your battery goes flat there is a key override function that will prevent you from being locked out.

User code that expires

A temporary pin access code can be programmed to last from three hours to two weeks. This is ideal for allowing short-term access to your property and reduces the potential risks in giving your keys to a tradesman, cleaner or neighbour.

Code lockout settings

Privacy mode allows you to deactivate the external keypad from the inside providing a secure environment from others who may have pin code access. By using your master pin, you can also restrict all user pin access.

Wireless Digital Deadbolt

Description

The Lockwood Electronic Wireless Digital Deadbolt offers the flexibility of a keyless entry locking solution whilst providing wireless Z-Wave or ZigBee network connectivity to integrate into building automation solutions.

Key Features

- One touch locking
- 250 user codes (when Networked)
- Weather resistant capacitive touch path
- Key override for emergencies
- Networkable

It fits majority of doors with 54 mm hole, making it ideal for new doors or replacement for an existing door lock.

Wireless Network Connectivity

This product can be controlled remotely by web-enabled devices once it has been integrated with home/building automation systems using either the Z-Wave or ZigBee wireless network module.

Illuminated Touch Screen Keypad

The touch screen keypad has no mechanical buttons which means no trace of your secret pin code.

Wireless Digital Deadbolt

Pin Code Allowance

One master pin code will manage up to 250 user codes when used with a wireless network module or 25 user codes when not networked.

Voice Guided Programming

Voice Guided Programming will audibly provide step by step programming instructions.

One Touch Locking

Conveniently lock your door by simply touching the keypad or use the automatic locking function.

Low Battery Warning

When battery power is below 30%, the low battery icon will begin flashing.

Emergency Key Override

In the event of your battery going flat there is a key override that will prevent you from being locked out. Remember to always keep your keys in a safe and convenient place.

Tamper Alert

An audible alarm sounds if attempting to forcibly remove outside lock from door.

Automatic Re-locking

This selectable feature will automatically extend the bolt into the locking position after a 30 second delay.

Wireless Digital Deadbolt

Safety

Never Carry Keys

Keyless PIN code access ensures security whilst away and allows people entrusted with a PIN code to gain entry with the simple push of a button.

Automatic locking ensures your family and valuables are constantly protected as the door is locked after a 30 second delay when either entering or leaving the property.

Security

Resting Easy All Night Long

Privacy mode provides ease of mind by disabling the keypad to ensure that no one can enter the property from outside while you are sleeping, with the exception of close family entrusted with a key.

Remote Management

Remote Access Control

The Wireless Digital Deadbolt lock status can be viewed and controlled via a PC, Notebook, Tablet or Smartphone. Simply lock or unlock your door from anywhere in the world.

Receive a text message or email alert when the door is accessed to know that your loved ones have arrived home safely (when integrated with Remote Management Software).

Available functions may vary based on your home automation control software.

Convenience

Trigger Other Devices

Integration with Remote Management Software will enable you to turn on other devices when you open the door using your unique PIN code including:

- Unlock all doors
- Turn on the interior house lights
- Turn on the TV
- Adjusts the thermostat to 21°C
- Close the curtains

Available functions may vary based on your home automation control software.

Control

Building Automation & Integration

The Lockwood Wireless Digital Deadbolt has been designed to easily integrate with a variety of wireless building control and security systems when used with Z-Wave or ZigBee wireless network modules. Remote management puts you in control of protecting what is valuable to you from anywhere and at anytime.

User Interface Functionality

View/Change Lock Status

The lock status can be viewed or changed on a Smart Phone, Tablet or PC. From anywhere in the world, remotely unlock the door for a neighbour or a caregiver.

Setup/Management

Set-up each lock and control the management of users on every door where a Lockwood Wireless Digital Deadbolt is installed.

History

View the history of who comes and goes at each door.

Trigger Other Devices

Use the lock to trigger other devices within the building such as lights, thermostat, alarm system and more.

Text/Email Alerts

Receive text or email alerts to inform who has entered the building and at what date and time.

Available functions may vary based on your home control software.

002 Digital DX Deadlatch

Description

The Lockwood Digital DX Locksets provide a mechanical method of keyless entry and are designed to control access into commercial areas, especially when frequent combination changes are needed to maintain security.

For extra security when under forced attack, the inbuilt clutching mechanism allows the outside knob to rotate without operating or damaging the lock.

The factory set 5 digit code is easily changed to any 4, 5 or 6 digit code using the code changing kit provided with each lock.

As the digital lockset utilizes mechanical operation, electrical wiring is not required.

002 Digital DX Locks suit right or left hand opening in doors. Versions for outward opening doors or doors with metal frames sold separately.

Product Details

Backset	60mm
Door Thickness	32mm to 45mm
Finish	Satin Chrome Brushed* (SC)
Internal Case Assembly	High purity zinc alloy, 92mm wide, 72mm high, 54mm projection
Latch	18mm projection, stainless steel

* Finish denotes the finish on the digital code pad, the 002 lock body is supplied in satin chrome pearl.

Key Features

Outside Function

Press the C button, enter the correct code, then turn the knob to unlock the door. Upon releasing the turn knob the code is automatically cancelled.

Inside Function

Opened by knob/lever at all times.

Hold-Back Function

Bolt hold-back function activated by rotating inside knob/lever clockwise, past 90 degrees.
