

Introducing HANAFINN™

Innovative sealers and cleaners for all natural stone, tile, paving, concrete, brick and grout

HANAFINN™ innovative sealing and cleaning products offer cutting edge performance, and are a safer, easier to use and more environmentally responsible choice.

The HANAFINN™ range includes products for stain protection, heavy duty cleaning, everyday cleaning and even hands free maintenance of porous surfaces, including kitchen and bathroom surfaces, patios, entertaining areas, building facades and pool surrounds.

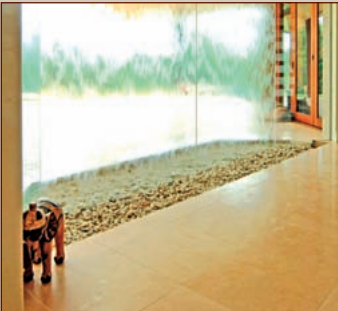

HANAFINN™ sealers and cleaners are designed to be effective for domestic and commercial use.

HANAFINN™ performance

There has always been a divide between products which work and products which are safe and environmentally responsible. But, sealers and cleaners don't need to overwhelm you with powerful smelling toxic chemicals to work well.

The HANAFINN™ range is created by Dry-Treat, the world leader in impregnating sealer technology. HANAFINN™ products use cutting edge technologies to provide improved performance and a new standard of safety and environmental responsibility.

Personal and environmental safety

Traditionally, effective cleaners and sealers contain chemicals which can be toxic and harmful to people and the environment. HANAFINN products are designed to be safer to use, safer to transport and to minimize our impact on the environment.

Ease of use

HANAFINN™ products help homeowners and professionals to get great results with minimal fuss.

Our aim was to eliminate the traditional divide between professional products, which use dangerous chemicals and require special gear / skills / knowledge, and DIY (do-it-yourself) products.

How much sealer / cleaner do you need?

Product		1 Quart average coverage	
		sq. feet	sq. metres
Ole-Repella™ Invisible, environmentally friendly, hi tech penetrating sealer for premium stain protection	Basalt	80	8
	Brick	60	6
	Clay paver	70	7
	Concrete paver	70	7
	Granite	100	10

HANAFINN™
Solutions for beautiful surfaces

Innovative sealers and cleaners for all natural stone, tile, paving, concrete, brick and grout

HANAFINN™ Products

Ole-Repella™

Penetrating sealer for stone, tiles, pavers, brick, concrete and grout.

Ole-Repella™ is a penetrating, invisible and breathable water-based sealer which protects porous surfaces against stains to keep surfaces looking great.

- Super water and oil-repellent for premium stain protection
- Lasts longer
- Retains natural color and finish
- Easy to use, one step application
- Low odor
- Makes cleaning easier
- Retards moss, mold and mildew growth

Suitable surfaces include

- All natural stone, tiles, bricks, pavers, concrete, masonry and grout
- Floors, driveways, patios, paths, building facades, bathrooms and kitchens, stone countertops, swimming pool surrounds, garages, eating and entertaining areas
- Suitable for indoor / outdoor use, and domestic or commercial applications

Safety and the environment

- Water based, ultra low VOC (carbon emissions). Compliant with LEED VOC standards (World Green Building Council) and EU VOC Directives 2004/42/CE
- PFOA free

Skavenja™

Non-acidic grout haze, efflorescence and rust stain cleaner

Skavenja™ is a specialist non-acidic gel that hunts down and dissolves fresh grout haze, efflorescence, rust and other unsightly contaminants into small suspended particles which are easily removed.

- Effective for removing grout haze, efflorescence, rust stains, bore water marks and clay residue
- Water dilutable gel designed for easy application to both horizontal and vertical surfaces such as cladding and building facades
- Suitable for domestic and professional use

Suitable for

- All natural stone, tiles, bricks, pavers, concrete, masonry and grout
- Safe for use on acid sensitive surfaces, including polished marble, limestone, travertine and concrete

Safety and the environment

- Safer to use and transport than traditional acid-based cleaners.
- Ultra low VOC

Oxy-Klenza™

Powerful, environmentally sensible, oxygen-based cleaner

- Removes tough stains and soiling, including grease, general grime, mold, algae and leaf marks
- Suitable for heavy duty deep pore cleaning (including stone restoration) and light duty cleaning
- 100% powder concentrate - 2.2 lb. (1 kg) makes 10 gallons (40 liters) for heavy duty cleaning
- Odorless plus disinfects and breaks down odors

Suitable for

- All natural stone, tile, masonry, concrete, grout, vinyl and unfinished wood
- Patios, kitchens, bathrooms, decks, floors, building facades, walls, cladding, public spaces, swimming pool surrounds, garages, driveways, eating and entertaining areas
- Indoor / outdoor use, and residential / commercial applications

Safety and the environment

- Hyper-biodegradable – decomposes quickly into oxygen, water and natural salts
- Powder concentrate is safe to transport
- Safer to use and gentler on skin than traditional alkaline / caustic cleaners
- Zero VOC

Sola-Kleena™

Let the sun do the cleaning for you

Sola-Kleena™ is an innovative, self-cleaning, photo-active (light activated) cleaner for hard porous surfaces. Simply apply and leave it to work. A light coat of Sola-Kleena™ breaks down organic dirt, grime and other pollutants, cleaning the surface over weeks, and continues to work for months.

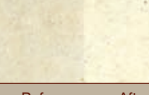

- Self-cleans, using light to break down organic dirt, bacteriae, algae, mold and mildew
- For heavily soiled surfaces, it is recommended to first deep clean the surface with Oxy-Klenza™, then treat with Sola-Kleena™ to keep it clean
- Keeps working for up to 1 year
- 1 quart (946 ml) of concentrate covers 800-1000 sq. feet / 80-100 sq. metres

Suitable for

- Hard porous surfaces including natural stone, tile, masonry, concrete and grout
- Patios, kitchens, bathrooms, decks, floors, building facades, walls, cladding, public spaces, swimming pool surrounds, garages, driveways, eating and entertaining areas
- Indoor / outdoor use, and residential / commercial applications

Safety and the environment

- Uses natural minerals – no harmful chemicals or residues
- PURIFIES THE AIR, breaking down odors, VOC emissions and other air-borne pollutants. A 10,000 sq ft / 1000 sq m treated area has approximately the same air purification effect as 70 full grown deciduous trees
- Zero VOC

Rejuvenata™

Cleans and protects natural stone countertops

- Gentle daily cleaner for natural and engineered stone countertops
- Contains invisible sealer to enhance protection and make cleaning easier
- Breaks down odors and leaves fresh lemon scent

Suitable for

- Natural stone, engineered stone, lacquered timber, stainless steel, synthetic laminates and polished concrete

Safety and the environment

- Food safe and PFOA free
- Water-based, ultra low VOC

Rejuvenata Concentrate for Floors™

Daily floor cleaner and conditioner for natural stone and other porous surfaces, with added protection

- Gentle daily cleaner and conditioner for all sealed natural stone, paving, tiles and other porous surfaces
- Contains invisible sealer to enhance stain resistance and make surfaces easier to clean
- Concentrate dilutes 1:20 with water
- Rejuvenata™ is not a replacement for sealing, but will enhance the protection of any impregnating sealer

Suitable for

- All Natural stone, tiles, bricks, pavers, concrete, masonry and grout
- Floors, patios, bathrooms, kitchens, stone countertops, swimming pool surrounds, eating and entertaining areas
- Suitable for indoor / outdoor use, and domestic or commercial applications

Safety and the environment

- Food safe and PFOA free
- Water-based, almost zero VOC

X-Duty Graffiti Kleena™

Specialist cleaner for removing graffiti, difficult stains and wax coatings.

- Powerful, low odor cleaner for removing graffiti and difficult stains
- Removes wax coatings from polished porcelain tiles

Suitable for

- A wide variety of surfaces, including natural stone, tile, concrete, brick & metal

Safety and the environment

X-Duty Graffiti Cleaner™ contains powerful chemicals, for the removal of graffiti paints, but the use of common known carcinogenic solvents has been eliminated to minimize possible harm. Appropriate care should always be taken when handling powerful chemicals, including protective gloves, goggles and breathing mask. X-Duty Graffiti Cleaner™ is biodegradable.
