

Mallee Earthmoving & Excavations

OUR MISSION

We are committed to consistently delivering superior earthmoving services and quarry products on time and on budget that exceed the expectations of our customers with a professional and environmentally friendly approach to our work.

OUR VISION

To be recognised as the preferred earthmoving contractors and materials supplier in our region based on diligence, integrity, performance and value encompassing environmental awareness and sustainability without comprising safety or quality.

ABOUT US

Located in Mildura, Northern Victoria, Mallee Earthmoving & Excavations was established in Tol Tol, near Robinvale, in 2015 by the Gallace family. Initially work was generated from numerous requests by local agricultural business to undertake small-scale commercial and agricultural earthmoving projects.

Today Mallee Earthmoving & Excavations is a fully-fledged and family owned earthmoving enterprise employing highly skilled and qualified operators, administrators and consultants with the capacity to undertake large-scale commercial projects alongside smaller residential works, particularly in the horticultural, c and renewable energy sectors.

Together with sister company Mallee Quarries we have the capability to offer an end-to-end supply chain solution. From extracting and crushing raw limestone at our quarries in the Mallee, to transporting to our stockpad in Merbein South or delivering directly to clients' sites in our fleet of NHVAS accredited heavy vehicles, our product is ready for our earthmoving team begin work on your project.

At MEE we are committed to ensuring a safe working environment for our employees, contractors and suppliers. We work in partnership with our stakeholders to ensure compliance with their safety systems and promote a strong safety culture within our own organisation as we believe all incidents are preventable.

We have a reputation for high quality work, exceptional customer service and total project management solutions by engaging a team of specialist consultants.

MEE understands the importance of the protection and sustainability of the environment in which we work, and we will consult at every stage of the process to ensure minimal disruption to our native vegetation and wildlife.

Our specialist fleet of plant and equipment allows us to deliver a diverse range of civil construction works across Northern Victoria, the Far West of New South Wales and the Riverland region of South Australia. Currently Mallee Earthmoving and Excavations is expanding its operations and resources enabling us to undertake larger and con-current projects.

2022

- Cut and fill 1500 acres for potato production

Mildura Rural City Council

2021 - 2023

- Patrol grading and resurfacing of rural roads across the municipality
- Supply and deliver 8000t of road base for various projects

Garraway Group for Secure Energy JV Transmission Line

2022-2023

- Supply and deliver over 100,000 tonnes of pugged road base

Wentworth Shire Council

2020 – 2023

- Crush, screen and pug 116,000t of client's road base material

Mallee Earthmoving & Excavations – Mallee Quarries

2015 – 2023

Environmental Rehabilitation of our Extractive Industry sites and Mining Lease (Gypsum)

OUR CORE SERVICES

- Site Clearance
- Cut and fill & laser levelling
- Rehabilitation works
- Subdivisions
- Commercial Car Parks
- Drainage & Culverts
- Sewer & Water Mains
- Roads, Footpaths and Kerb & Channel
- Pond & Dam Installation
- Excavation & Trenching
- Service Placement
- Backfilling & Compaction
- Potable Water Cartage
- Line marking & Landscaping
- Crossovers & Driveways
- Concreting, Bitumen and Asphaltting
- Dust Suppression

PLANT & EQUIPMENT

- Dozers D8T & D6R
- Excavators 5t – 70t
- Graders
- Rollers
- Laser Buckets
- Wheel Loaders
- Skid Steers
- Potable Water Carts & Tankers
- Rock Crushers & Screens
- Cement Silo
- Pugmills
- Tractors
- Trench Diggers
- GPS capabilities
- Low loaders for mobilisation

CERTIFICATION

MEE maintains prequalification criteria and has systems and procedures that ensure its WHS, Quality and Environmental requirements will be achieved on all projects without compromise.

Using Edara Systems for our IMS we are accredited to:

ISO 9001:2015 ISO14001:2015 ISO 45001:2018

Mallee Quarries works with major projects to deliver its quarried material and construction material supply needs. These include the EnergyConnect Project for TransGrid, renewable energy projects and Government rehabilitation projects following the 2022 major flood event in NSW and Victoria.

Our quarry sites are resourced with modern crushing and screening equipment serviced by dedicated maintenance personnel to ensure maximum production and stockpile volumes are maintained. Production can be scaled up to meet large order in within short timeframes if necessary. Regular NATA testing is undertaken to ensure materials meet specifications.

We maintain stock available for retail sale at our stockpad in Merbein South, which is serviced by two Certified Gendio 28-metre Weighbridges. Materials are pugged or cement-treated on-site to order when required.

Mallee Quarries mines high grade gypsum at its Mining Lease in Mourquong, near Wentworth, in NSW where we offer supply only or supply and delivery across NSW, Victoria and South Australia. Our major clients include Elders Rural Services, Yenda Producers, AgnVet, Coota Producers, Premium Soils, BQS, Select Harvests and other smaller independent growers and retailers.

QUARRY & GYPSUM SUPPLIES

TECHNICAL SPECIFICATIONS

Victorian Department of Transport -

20mm Class 3 CR

Mix Number: MEE20C13 2023-1

PRODUCTS

- Road Base (Cement Treated)
- Crushed Rock to specification – wet and dry
- Aggregates
- Crusher Dust
- Spalls
- Beaching
- Dirty Metal
- Slab Loam
- Gypsum (Grade 1)

TESTING AND QUALITY

Regular and on-demand NATA Geotechnical Testing for all products to VicRoads and RMS (NSW) specification

OUR FLEET

Operating under NHVAS Fatigue and Mass Management Accreditation, our modern and extensive fleet delivers flexible and reliable transport solutions.

We have our own vehicles, systems, service and safety team to ensure our daily operations and projects run to schedule and in compliance with our accreditation.

We operate a fleet of heavy haulage prime movers and floats capable of hauling earthmoving and construction equipment and other over-dimensional loads.

Our side and stag tippers cart road base, quarry materials and organic products to support Government projects and agricultural operations across Victoria, southern NSW and the Riverland of South Australia.

- A-Double, B-Triple and AB Triple Road Trains
- B Double Side and Stag Tippers
- Semi Side and Stag Tippers
- PBS Trucks and Quad Dogs
- Trucks and Quad Dogs
- Low Loader Floats
- Articulated Water Tankers
- Tandems
