

## **Why do we have Plumbing**

### **Why do we have plumbing?**

**As well as the comforts and luxuries of modern living Plumbing systems protect the community from disease.**

*Invisible* organisms that swim around in a watery environment was beyond imagination until a few centuries ago, it was only in the late 19<sup>th</sup> century that scientists discovered and isolated specific microbes of particular a disease, cholera, has proven one of history's most virulent killers.

Mankind began to understand that the evil spirits causing its woes were microscopic creatures that could be defeated by plumbers and sanitary engineers. With well designed plumbing and draining systems.

As we go about our everyday lives it is comforting to know that people's lives are protected by having Correctly Installed and maintained Plumbing Gasfitting and Draining Systems.

### **Our role in the community**

**At Active Plumbing we have a duty to protect people's health and safety by correctly repairing maintaining and installing plumbing gasfitting and drainage systems Home and office.**
