

MAXLIGHT®

... the skylight without equal.

**15
YEAR
WARRANTY**

MODEL	COVERING AREA	POTENTIAL LENGTH
DL250	18m ²	7m +
DL400	25m ²	10m +

The new **MAXLIGHT®** series is a most comprehensively Australian designed and manufactured tubular skylight. Engineered to deliver maximum and consistent performances throughout the year.

How it works...

Advanced optical dome engineered to capture the sunlight and bring it down into the tube, even during low-light hours.

The light travels through an extremely reflective mirror-like tube.

Light enters your home and spreads evenly in the room through triple lens diffuser.

Cutting edge technology in daylighting

Raycatcher® Dome

- Registered design active dome.
- Captures low light angle.
- Minimize midday light intensity.
- Crystal clear surface.
- Exclusively engineered and designed.
- Durable injection moulded design.

Seamless Flashing

- Leak-proof roof system.
- Seamless injection moulded part.
- Designed to suit most roof types.
- Engineered with pitch for maximum performance.

Optical Diffusion System

- Registered Micro-Prism design.
- Unique triple layer diffuser kit.
- Blocks harmful UV transmission.
- Advanced Fresnel Lens for optimum performance.

M-Silver Tube®

- Durable solid aluminium - not laminated polymer.
- Transmits pure white light.
- Highest reflectivity at low sun angle.
- It will not yellow, crack or peel after prolonged UV exposure.
- 15 year warranty.
