Hot Water

Hot Water Systems

Jim's Plumbing are your hot water heater specialists, able to repair and replace your hot water unit **24 hours, 7 days a week**. We have **"No Interest Ever!"** on hot water heater replacements. If your hot water heater is leaking, or you have no hot water, we can often have a plumber to you within the hour. Our large fleet of vans operate **24/7** and are able to get you back into hot water that same day. Each of our vans carry an extensive range of hot water heater replacement parts. This will mean we are not having to leave site to source the required parts in a repair situation, thus saving you time and money. If you have a burst hot water heater, we are able to replace this that same day. **This includes weekends and public holidays.**

Jim's Plumbing are hot water experts, able to repair your gas hot water heater, electric hot water heater or solar hot water heater. We are also your hot water unit replacement specialists.

There are many types of hot water heaters on the market, which include:

- Electric Hot Water Heaters
- Gas Hot Water Heaters
- Solar Hot Water Heaters
- Heat Pumps
- Instantaneous Hot Water
- Gas Boosted Solar Hot Water Heaters
- Gas Continuous Flow Hot Water Heaters

Hot water systems (also known as hot water heaters, hot water services or hot water units) provide your home or office with hot water. It is imperative to choose the correct hot water system for your needs and means. Jim's Plumbing can help you select the right hot water system for your home – and we even offer a free quoting service whereby one of our plumbers can come to your place and determine the correct system for you. Some factors to consider when choosing the right hot water system include:

- What type of energy can you use (gas, solar, electric etc)
- What size system do you need (this depends on numerous factors such as number of bathrooms, number of householders etc)
- Space considerations for indoors and outdoors – this will help you determine where your system should be installed around your home or office
- Features required such as temperature controls, warranty etc

Choosing the correct hot water system can be difficult, as there are so many options to choose from – like [gas](#), [solar](#), [electric](#), [heat pump](#), [instantaneous](#), or [gas boosted solar](#) – Click on the links to find out more about these systems. Some of our preferred Hot Water System brands include:

- [Aquamax](#)
- [Bosch](#)
- [Dux](#)
- [Rheem](#)
- [Rinnai](#)
- [Saxon \(QLD\)](#)
- [Vulcan](#)

.....AND MORE! If you have a preferred hot water system brand that is not listed here – we can order and install it for you!
