

## COMPANY/CAPABILITY OVERVIEW

### Excellence in Metal Components

Since 1974, Samin Sheet Metal have specialised in the design and manufacture of sheet metal components and continue to provide quality products for clients through:

**Numerous Industries** - Aviation, Defence, Electronic, Medical, Mining, IT, Automotive and General Engineering sectors

**Latest Technology** - CNC Machinery and Solid Works 3D design software to assist our creative engineering team

**Manufacturing Components** - Using ferrous and non-ferrous materials and a range of plastics

**Fully Automated Machinery** - Allowing the flexibility of lights out processing to meet project deadlines.

## COMPETITIVE ADVANTAGE

### What Sets Us Apart?

Samin's 40 years' of industry experience and ongoing commitment to quality improvement sees us best placed for sheet metal requirements. We offer:

**Flexible Manufacturing** - Allowing both large and small quantity jobs to be processed with the same efficiency

**Progress Monitoring** - Our M1 ERP manufacturing software allows us to continually monitor and record all works in progress

**Traceability** - Providing complete control and traceability for every component produced

**Highly Trained Personnel** - Operating state of the art machinery in a clean and orderly factory environment

## CAPABILITY

### No Project is Too Large or Small

Samin welcome unique, one off, or quantity production requirements made to your exact specifications and we guarantee:

**Efficiency** - Meticulous attention to detail and superior understanding of component application

**Results** - We're committed to technical innovation and meeting customer expectations

**Target Deadlines** - Dedicated to on-time delivery

**First Class Facilities** - Laser cutting, Turret punching, Folding, Deburring, Fastener and nut insertion, Welding, Powder Coating, Anodizing, Screen Printing and Fabricating.

## PARTNERS AND CUSTOMERS

### Supporting Australian and International Customers

Our capabilities are recognised by major customers and suppliers, including:

**Ferra**

Hastings Deering **CAT**

**Agilent Technologies**

**energex**

**madison**  
Connective Technologies

**aim Lab**  
Automation Technologies

**NEXT D.C.**
