For Patients

This section is dedicated to our valued patients.

Sunshine Coast Cardiology aims to provide you with the service and care you expect from your private specialist practice. We are a comprehensive practice and provide all cardiac testing on site including echo and stress testing.

We consider it a privilege to look after your heart health, and we strive to treat you with care and compassion at all times. Every member of our dedicated staff is trained to look after your needs, and your cardiologist is dedicated to looking after your health from your first consultation, through diagnosis and treatment, to ongoing surveillance and prevention.

This section contains useful information for our patients, regarding the Practice, cardiac tests and procedures, and common cardiac conditions, and frequently asked questions.

Browse through the tabs to the left for more detailed information.
