

# Termidor® HE

High-Efficiency Termiticide

## Taking termite treatment to a whole new level

Termidor® has been recognised as Australia's best termite treatment since it was launched over 15 years ago.

Now new Termidor HE (as in 'High Efficiency') makes it even simpler to create even more flexible and consistent protection against termites for your home.

### A new level of effectiveness

Termidor HE is an advanced formulation of the same extremely powerful active ingredient that has made the original Termidor products the most trusted and effective termite treatments.

Termidor HE spreads much further through the soil than older treatments to create a more even and effective protective zone termites cannot avoid.

Termidor HE binds strongly to organic matter in the soil and, as long as the soil isn't disturbed, stays in place for years. So it's not just superior protection at the start. It goes on providing the highest level of protection year after year.

**Standard treatments** have very limited movement through the soil and can be unevenly distributed within the protective zone.

**New Termidor HE** spreads through the soil to create a deep, invisible, even and unbroken protective zone all termites are affected by.
