Rimlocks

Rimlocks
Overview

Designed in Australia, the Lockwood Rimlock range is manufactured according to stringent quality specifications to provide an outstanding range of security solutions for both the commercial and residential markets.

Deadlatches

The market leading deadlatch range from Lockwood has been tested in accordance with AS4145.2 -1993, offering exceptional performance and reliability.

The patented *SAFETYRELEASE* function was pioneered with the 001 Deadlatch to automatically unlock the inside knob upon entry, thus minimising the risk of being locked inside in the case of an emergency.

The *LOCKALERT* feature added to the latest range of 001 Deadlatches allows you to see at a glance whether the inside knob is key locked.

Deadlocks

With excellent security features and traditional styling, the deadlock is ideal for both hinged and some sliding doors in residential and commercial applications.

Streamlatches and Nightlatches

Popular general purpose latches operated by an inside turn knob, these products are available in a variety of options and styles.

001 Deadlatch with LockAlert®

355 Deadlock

201 Nightlatch

Rimlocks
001 Double Cylinder Deadlatch

The Lockwood 001 Deadlatch with *LOCKALERT* status indicator and *SAFETYRELEASE*.

Features and Specifications

- The unique *LOCKALERT* status indicator shows the lockset status at a glance
- *SAFETYRELEASE* automatically unlocks the internal knob upon entry
- High security with cut resistant stainless steel bolt, 11 concealed anchorage points and door frame strengthener
- Tested in accordance with AS4145.2 - 1993
- Bolt hold-back function activated by external key or internal knob
- Can be key locked in hold-back position by key from inside
- Can be keyed alike to other Lockwood door locks
- Available in trade and display pack versions

Case
High purity zinc alloy.

Backset
60mm.

Latch
Stainless steel 18mm projection.

Door Thickness
30 – 45mm.

Packers
3mm thick packer plates are available, these packers are installed under lock body to align lock body with face of jamb.

Cylinders
- Internal and external 5 pin tumbler mechanism
- Brass cylinders and brass barrels

LOCKWOOD

ASSA ABLOY

Lockwood is the leading brand in the Australian
locking industry. With an established reputation
for high quality products, this iconic brand provides
a wide range of locking solutions to residential
housing, commercial building and industrial
application markets. Lockwood is supported by an
extensive distribution and
after-sales support network. Our customers include
retailers, architects, trade and industrial personnel,
locksmiths and security dealers.

ASSA ABLOY

ASSA ABLOY is the global leader in door opening
solutions, dedicated to satisfying end-user needs
for security, safety and convenience.

ASSA ABLOY is represented in all major regions,
in both mature and emerging markets, with leading
positions in Australia, Europe and
North America.

As the world's leading lock group, ASSA ABLOY
offers a more complete product range of door
opening solutions than any other company
in the market.
