*"I am the owner of two companies, both of which Neil and "No Cracks Plumbing" have been my Plumbers for the past 6 years. The first company is called GCI and is a transport and town planning consultancy and the second is Bayside Short Term Rentals - a company that provides fully furnished houses for short term rentals."*

*"Neil understands the urgency of providing houses with working sewerage systems and as such puts me, as a client, on a priority listing so that if I have tenants that advise of a problem, he ensures that either himself or one of his friendly workers immediately rectify the situation. Neil is honest and upfront, and if he cannot fix the problem immediately he will return within 24 hours to ensure that the problem is under control. I have no hesitation in recommending Neil and his crew."*
