THE TRENDSET DIFFERENCE...FACT SHEET

- ✓ Over 20 years experience in the kitchen and joinery industry.
- ✓ Free design appraisals and quotes – usually including a 3D render of your project.
- ✓ Local Family owned and operated small business with an unsurpassed reputation for design, quality and personalized service. Employing 9 local tradesmen.
- ✓ Brand new, modern and interactive double storey showroom and design centre.
- ✓ Consistent communication guaranteed throughout the entire project – from concept to completion.
- ✓ Post installation service to make any final adjustments.
- ✓ Custom designed and built projects based on your needs, available space and lifestyle. Not mass produced one size fits all modulars that sacrifice quality, look unprofessional, and will never “fit” your available space without hassles!
- ✓ It’s the little things like free color and surface consultancy, designs by a certified kitchen designer, total project management, sample service, home warranty insurance, after hours contact to name a few that makes us different. We also pride ourselves on continuing Professional Development – so we are aware of new and upcoming trends and products in the industry.

IT’S JUST WHAT WE DO.....

Jason & Kerri Bilson
