Someone has a key to my house that shouldn't. What do I do?

The best thing in this situation is to re-key or replace you're locks so the person wont have access anymore. We can come out to your premises and re-key or replace your locks so the original key will not work and provide you with a new set of keys..

Do I need to replace my locks to get the key changed

You don't need to replace your locks to get your key changed. We can re-key your existin locks by re-pinning them making the original key not work and providing you with a new set of keys.

Should I rekey my locks or replace them?

If your locks work well, are in good working condition and feel secure, then re-keying is by far the most cost effective way to change the keys on your premises.

What if my locks are old and don't work properly?

If your locks are really old and have seen better days, then replacing your locks will be beneficial. Not only will the locks look nice and shiny but newer locks will be more effective at preventing brake-ins and will be alot be more reliable. Replacing all your locks will be more expensive than re-keying them as they can range from about \$65 to over \$300 per lock depending on the brand and quality.
