i

SP Cleaner - Floors

S-P Cleaner is an excellent neutral PH cleaner for everyday cleaning of your stone floors. It will clean dirt and grime off the stone surface and leave benchtops feeling fresh, smooth and sparkling. It will also reduce streaking which is a common concern with glossy natural stone surfaces.

Each time S-P Cleaner is used on the floors surface if sealed by Dry-Treat sealers the sealer will be conditioned helping keep the sealer in tact for a full 15 years. S-P Cleaner may be used on a weekly basis but should be used a minimum of once per month.

INSTRUCTIONS FOR USE

Floors

- Step 1** Always vacuum the floor prior to mopping
- Step 2** Mix 100mls of S-P Cleaner in half a bucket of warm water
- Step 3** Using a damp Microfibre Mop, clean the floor with the mixed solution from the bucket. A damp rather than wet mop will leave fewer streaks.

If you need to scrub grout we recommend using Stone Deep Clean, which can be purchased from 'The Marble Man'.

Ideally all natural stone benchtops should be cleaned and sealed first by a professional to prevent staining and to prepare the surface for effective regular cleaning.

SERVICES

- ☒ Sealing
- ☒ Repolishing
- ☒ Resurfacing
- ☒ Chip Repairs
- ☒ Scratch Removal
- ☒ Stain Removal
- ☒ Grout Colourant
- ☒ Maintenance
