

Thinking of Roller Shutter protection for your home?

CW Products has the perfect window protection for every home and every season!

CW ROLLER SHUTTERS

Australia's Quality Shutter!

The perfect window protection for every home and every season

Extreme climate conditions are quite common in Australia, especially during the summer and winter months. You may have found that heat and cold enters or escapes your home through your windows and doors. By installing CW Roller Shutters you can instantly improve the insulation qualities of your home.

You can reduce summer heat entering through your windows by up to 90%, and reduce heat loss during winter by up to 70%. This ultimately helps you save money on the cost of heating and cooling your home all year round.

Extra security against intruders

And we've all read the media reports that burglaries and home invasions are on the increase. No longer can you consider your home a safe haven. But with CW Roller Shutters your home can once again be your castle. Once fully closed, our roller shutters make it very difficult for any intruder.

More privacy for your family

CW Roller Shutters also provide you and your family with the privacy you deserve. Both during the day and night you have total control over the amount of privacy you require from within the comfort of your home. And our roller shutters are designed to reduce noise levels by up to 50%, giving your family a quiet and comfortable living environment.

For more information on CW Roller Shutters, please contact your nearest dealer, installer or visit www.cwproducts.com.au!

More control over light

When the sun's UV rays enter through windows, this can be damaging to your furnishings, carpets and drapes. CW Roller Shutters can easily be adjusted to any height allowing in the desired amount of light, minimising any furniture or fixture damage, and giving you control of the light in your home.

Protect against accidents

And broken windows can be a thing of the past, especially for those families with children who love playing outdoors, or who live in areas that experience stormy weather. If you live in the hills or heavy scrub areas, CW Roller Shutters also offers specially manufactured bushfire rated roller shutters.

A superior paint finish

All CW Roller Shutters offer a better paint finish ideal for the harsh Australian climate, because they are taken through our state of the art, three-stage paint process which includes 1) pre-treatment, 2) a base coat and 3) a clear coat lacquer. We offer a range of 15 architectural colours, so our Roller Shutters complement most home colour schemes.

Australia's Quality Roller Shutter!

With over 30 years experience, CW Products takes pride in the way it manufactures the highest quality Roller Shutters. We only source the highest quality components and aluminium coils and extrusions from world leading suppliers. All CW Roller Shutters have a guarantee of product quality with our 5 Year Roller Shutter Guarantee!
