# ROOF MEMBRANE RESTORATION RANGE

The **AcraTex** range of roofing primers, sealers and undercoats; specially formulated for use before application of **Dulux AcraTex** Next Generation Roof Membrane products.

Product Name Lineshade #	Size	Pack Image	Description	Features	Benefits
AcraTex® Roof Primer MX 19485942-15L	15L		<b>DULUX AcraTex</b> Roof Primer MX is a quick drying, light grey water based primer which provides excellent adhesion to suitably prepared new or weathered galvanised / Zinalume® surfaces and Colorbond® Roofs.	Water based. Excellent adhesion. Zinc Metal Primer. Suitable for use in collection of drinking water.	Water thinning & easy application gives convenience and performance. Bonds tightly to all galvanised iron. Use under AcraTex Roof Membrane systems.
AcraTex® Roof Sealer WB 19485940-15L	15L		<b>DULUX AcraTex</b> Roof Sealer WB is a water based acrylic primer sealer supplied as a milky white solution which dries to a clear film. It is designed to be applied to suitably prepared newer smoother tiles.	Water based. Excellent adhesion. Fast dry. Suitable for use in collection of drinking water.	Easy application & clean up. Foundation for uniform adhesion & durability of AcraTex Roof Membrane systems. 2 Hour recoat.
AcraTex® Roof Primer Surfacer 19485941-15L	15L		<b>DULUX AcraTex</b> Roof Primer Surfacer is a light grey high build, pigmented, water based, 100% acrylic coating. It is designed to be applied to suitably prepared aged and pitted concrete roofs in need of restoration.	Water based. Excellent adhesion. Fast dry. Suitable for use in collection of drinking water.	Easy application & clean up. High Build Formulation. Foundation for uniform adhesion & durability of AcraTex Roof Membrane systems. 4 Hour recoat.
AcraTex® Roof Sealer SB 19485752-15L	15L		<b>DULUX AcraTex</b> Roof Sealer SB is a deep penetrating solvent based primer sealer for consolidating and unifying surface integrity.	Primes masonry surfaces. Excellent adhesion. Penetrating binder. Suitable for use in collection of drinking water.	Ensures good, uniform adhesion of topcoat. Binds friable masonry surfaces.
AcraTex® Roof Bond GI 19485959-15L	15L		<b>DULUX AcraTex</b> Roof Bond GI with InfraCOOL® Technology is a quick drying high build, high TSR water based primer for suitably prepared new or weathered galvanised / Zinalume® surfaces. Specifically designed for use under Cool Roof Commercial.	Water based. Excellent adhesion. High Total Solar Reflectance. High Opacity. Specifically for use under Cool Roof Commercial.	Water wash-up & easy application gives convenience and performance. Bonds tightly to all galvanised iron. Optimises Solar Reflection Cooling Benefit. Excellent hiding power.
AcraTex® PrepTreat 19485771-15L	15L		<b>DULUX AcraTex</b> PrepTreat is a water based low toxicity bacterial fungal and algal wash sterilising solution which will kill film spoilage species.	Water based. Kills mould spores. Fast dry.	Easy application & clean up. Effectively prevents the recurrence of mould growth. 2 Hour recoat.
