PROUDLY
AUSTRALIAN
OWNED AND
MANUFACTURED

OUR RANGE

Whether you prefer square, circular, rectangular or hatch models, our products are tailored to suit metal/concrete tile, corrugated custom orb and rib decked roof profiles. Redcliffe Skylights uses high quality materials and as an agent for both VELUX and Illume, we can ensure outstanding performance and value for money with every product.

BASES

All standard skylight bases are manufactured from 0.8mm Zincalume or galvanised iron. If required, units can be manufactured in stainless steel or aluminium. Bases can also be painted or powder-coated to suit most roof colours.

SKYLIGHT TOPS

Skylights come standard with 3mm high impact acrylic domes, in either opal or clear. We can offer 4.5mm high impact acrylic, polycarbonate or tinted finish, subject to availability. We also manufacture glass tops for BAL rated areas.

Light transmission	3mm Opal 50	50%
	3mm Clear	92%

DIFFUSER TYPES

The standard Y15 prismatic diffuser is ideal for dispersing light more evenly with a 82% light output ratio. There are other options available on request to better suit your style, such as Y12 prismatic, Lite Opal, Seadrift and Eggcrate.

SKYLIGHT MAINTENANCE

Skylights require little maintenance and are easily cleaned. You can clean your skylight with just sudsy water and a soft cloth, please take care when cleaning skylight domes and use minimal pressure. Redcliffe Skylights also recommends regularly clearing of any foliage or rubbish on and around the base of your skylights.

ABOUT US

Redcliffe Skylights and Norm Hogg Sheetmetals have a variety of equipment, multi-skilled and experienced employees, and can manufacture and design specialised products. Working with Zinalume, Galvanised Iron, Zinc Anneal, Aluminium, Stainless Steel, Colorbond, Signwhite, Brass as well as High Impact Acrylic, Polycarbonate and more. We have MIG and TIG welding available, and the ability to cut and fold most materials. Do you need a smoke vent manufactured, some flashing for your roof, or even a tool box made up? If you have a design or idea in mind then call us today or come and see us in store to discuss what is possible!

ADVANTAGES OF A RSI SKYLIGHT

- Installation made easy
- Robust design
- Weatherproof
- Low silhouette
- No extras, complete unit supplied
- Replacement parts also available
- Guaranteed ventilation and light areas to suit toilets, bathrooms and laundries
- Options for either ventilated (passive or mechanically) or non-ventilated

ALL METAL HATCH

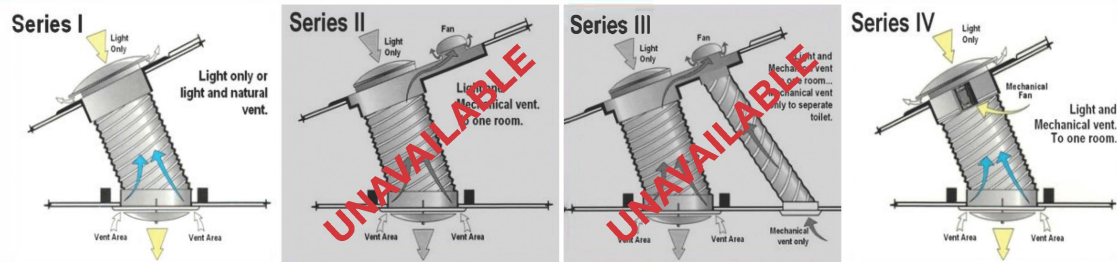

SKY HATCH

Also available are our All Metal Hatch and Sky Hatch to allow access to your roof. They can be manufactured fully flashed to suit metal or tile roof profiles and concrete/timber hobs. Both hatches come with stainless steel piano hinge, two gas stays, hasp and staple to allow for padlock devices (not included). All Metal Hatches are manufactured with an insulated lid and Sky Hatches are manufactured with high impact acrylic domes, with other options available.

ALSO AGENTS FOR **VELUX & ILLUME**

As an agent for both VELUX and Illume, Redcliffe Skylights can help you find what you are looking for, whether this is an openable skylight to allow ventilation, more light or to allow natural light into an area. Redcliffe Skylights will find what will best suit you and your needs.

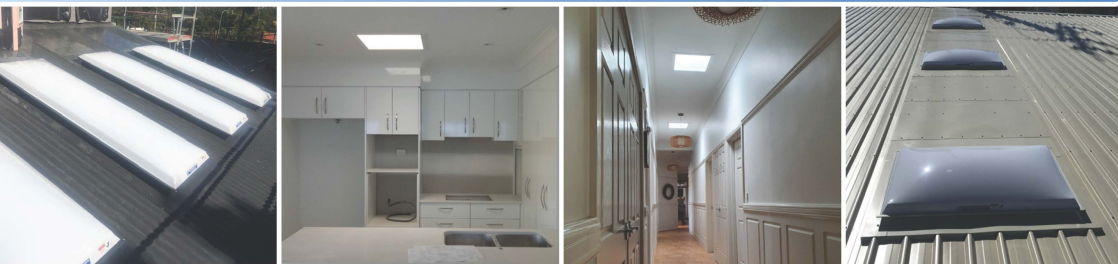

CIRCULAR SERIES

Redcliffe Skylights offer 4 different models in the circular series. All of our circular skylights from series 1 to 4 have only one roof penetration. This saves on installation costs and delivers a far smoother roof line. Redcliffe Skylights circular skylights have been developed with the utmost care and precision.

SQUARE OR RECTANGULAR SKYLIGHT

With skylights available to suit most domestic and commercial roofs, there is something for every property. Square or rectangular skylights can be a great addition to a dull, dark room and can also help boost your ventilation.
