

Acid Etched Mirrors

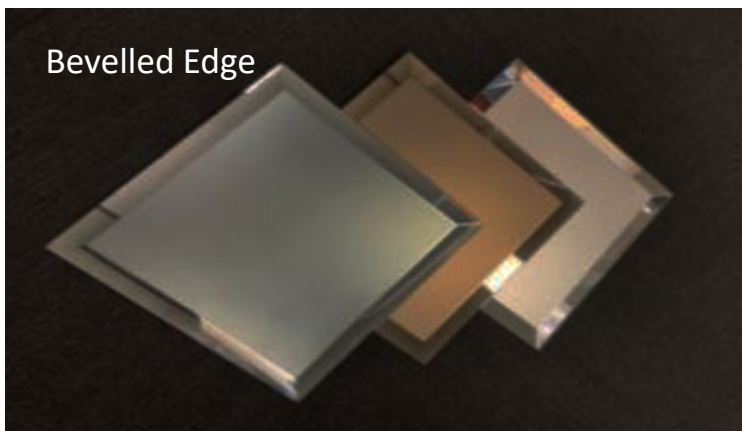

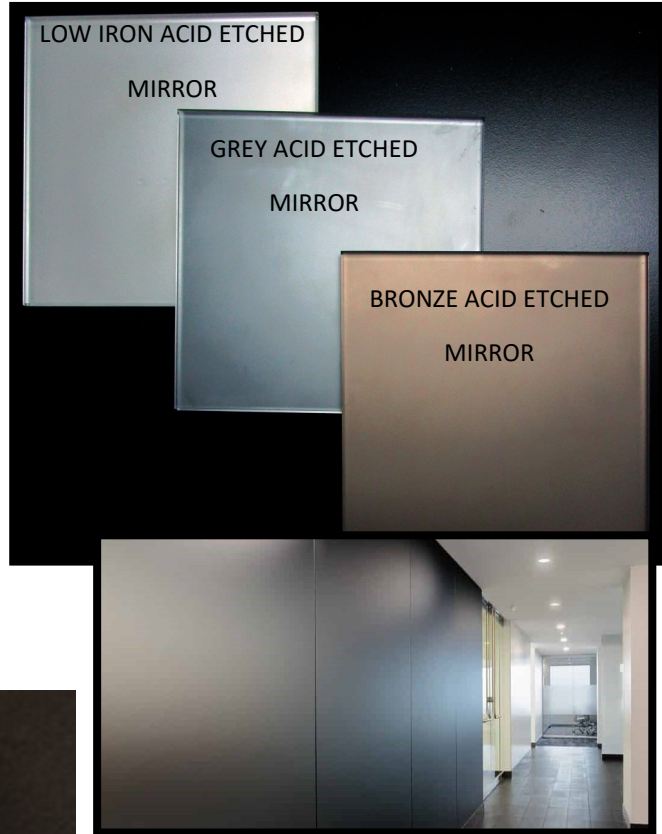

Low Iron, Bronze & Grey Float only

5mm thick, Sheet size 1830mm x 2440mm

Can be laminated or vinyl backed for safety

Acid-Etched Mirror is typically used in the following applications:

- ♦ Wall cladding
- ♦ Office partitions & enclosures
- ♦ Doors
- ♦ Displays & shelving
- ♦ Elevator cabs & exteriors
- ♦ Kitchen cabinets
- ♦ Furniture components
- ♦ Non reflective mirror used on Film Sets

Advantages of Acid etched mirror:

- ♦ Consistent finish and appearance
- ♦ Maintenance free
- ♦ Higher mark-resistance than sandblasted glass
- ♦ Does not peel or discolour like films
- ♦ Does not scratch off like coatings

Acid Etch Mirror adds to the decoration and design of your homes, common areas of hotels, offices, restaurants, halls, retail stores and more.
