CONSTRUCTION EQU

HUSKI SKID STEER LOADERS

Toyota Huski skid steer loaders have long been renowned as the finest available.

Strength, high performance and reliability have become synonymous with the Huski range.

Developed and tested in Australia, the Huski 5SDK skid steer loader range features exceptional stability, driver comfort and safety. The soft touch control ensures smooth transition of the lever, allowing for precise manoeuvrability.

The 5SDK skid steer loader range also provide owners with a product offering heavy-duty construction, low running costs and a longer machine life, adding true value to our customer's business.

4SDK4 320kg OPERATING LOAD

The Toyota Huski 4SDK4 skid steer loader is compact in size, yet powerful enough to handle the toughest job. Its compact size make limited access applications possible. The option of wide tyres takes the machine up to a metre in width, creating wider cutting width.

5SDK5 430kg OPERATING LOAD

The Toyota Huski 5SDK5 skid steer loader is a quick powerful machine, capable of performing all the tasks of the bigger machines, yet compact enough to fit in confined spaces. It provides outstanding operator comfort and machine performance, with easy to operate control levers and a rugged frame for the toughest of jobs.

5SDK8 650kg OPERATING LOAD

Built for the job and made for the operator, the Toyota Huski 5SDK8 skid steer loader has a spacious cabin opening for smooth entry and exit, along with an easy to read instrument panel and low vibration and low fatigue control levers, provide outstanding operator comfort. Class leading visibility and outstanding manoeuvrability makes the 5SDK8 skid steer loader a valuable addition to any worksite.

5SDK9 730kg OPERATING LOAD

The 5SDK9 skid steer loader offers operators class leading levels of steering and operator control, with performance geared to meet the most demanding applications. An optional high flow system available on the 5SDK9 skid steer loader operates most high-flow attachments requiring flows of up to 100 litres per minute, all packaged in a tough Toyota body for outstanding performance you can rely on.

5SDK10 820kg OPERATING LOAD

One of the largest machines in the Toyota Huski family, the 5SDK10 skid steer loader has earned a reputation for being one of the toughest skid steer loaders available. With effortless power to perform the larger earthmoving tasks efficiently, all with outstanding speed and accuracy. The 5SDK10 skid steer loader also features an arm structure that allows the bucket to lift almost vertically, making possible smooth operation even in enclosed areas.

5SDK11 900kg OPERATING LOAD

With a powerful 900kg operating load capacity makes the 5SDK11 skid steer loader the ideal machine for the most demanding of applications, providing you with toughness coupled with pin-point precision, all at your complete control. Like the 5SDK10 skid steer loader, the 5SDK11 skid steer loader also offers vertical arm lift operation, helping to improve stability and easier dumping operability.

EQUIPMENT SOLUTIONS

HUSKI MINI EXCAVATORS

Toyota Material Handling's range of Huski mini excavators represent excellent reliability and are stacked with operator features. The range consists of seven models including one 1.3-tonne short-radius machine and six zero tail swing models ranging from 1.6-tonne through to 6-tonne. Fundamental to the Huski mini excavators' robust construction and functional design is excellent quality-of-materials, high technological content of components and the strict inspection of production and assembly processes.

The Huski mini excavators come generously equipped as standard with many options also available. Additionally, the zero tail-swing functionality means the unit can swing 360 degrees within the total width of its chassis and the machine tail doesn't protrude past the width of the machine's undercarriage.

MODEL	M-13K	M-16U	M-22U	M-28U	M-38U	M-55U	M-60U
BUCKET (STANDARD)	300mm	400mm	400mm	450mm	450mm	600mm	600mm
DIGGING FORCE (daN)	800	895	1410	1725	1950	2900	2900

HUSKI SCISSOR LIFTS

The Huski E-Series Scissor Lift is one of the most versatile tools on the market. Designed for facilities maintenance, installation, construction, and more it has working heights of up to 9.78m and the capability to fit through a doorway, the manoeuvrable and agile E-Series Scissor Lift is a dependable tool for many tasks.

With steel-constructed panels and powder-coated paint make the E-Series Scissor Lifts built to last. The extendable platform allows operators to safely reach across fixed objects while the tilt alarm alerts operators to unsafe working conditions and limits platform movement until safe operation is restored. The folding guardrails allow for larger models to pass through doorways and under other low obstacles while the operator is off the scissor lift.

The dual operational mode provides increased platform capacity at lower heights for flexible use, while the upper control box offers two mounting positions or remote use while off the scissor lift.

MODEL	SV06ENS	SV06ENL	SV08ENL	SV08EWL	SV10EWL
PLATFORM HEIGHT	5.72m	6.10m	7.77m	7.92m	9.68m
LOAD CAPACITY	230kg	360kg	360kg	450kg	450kg

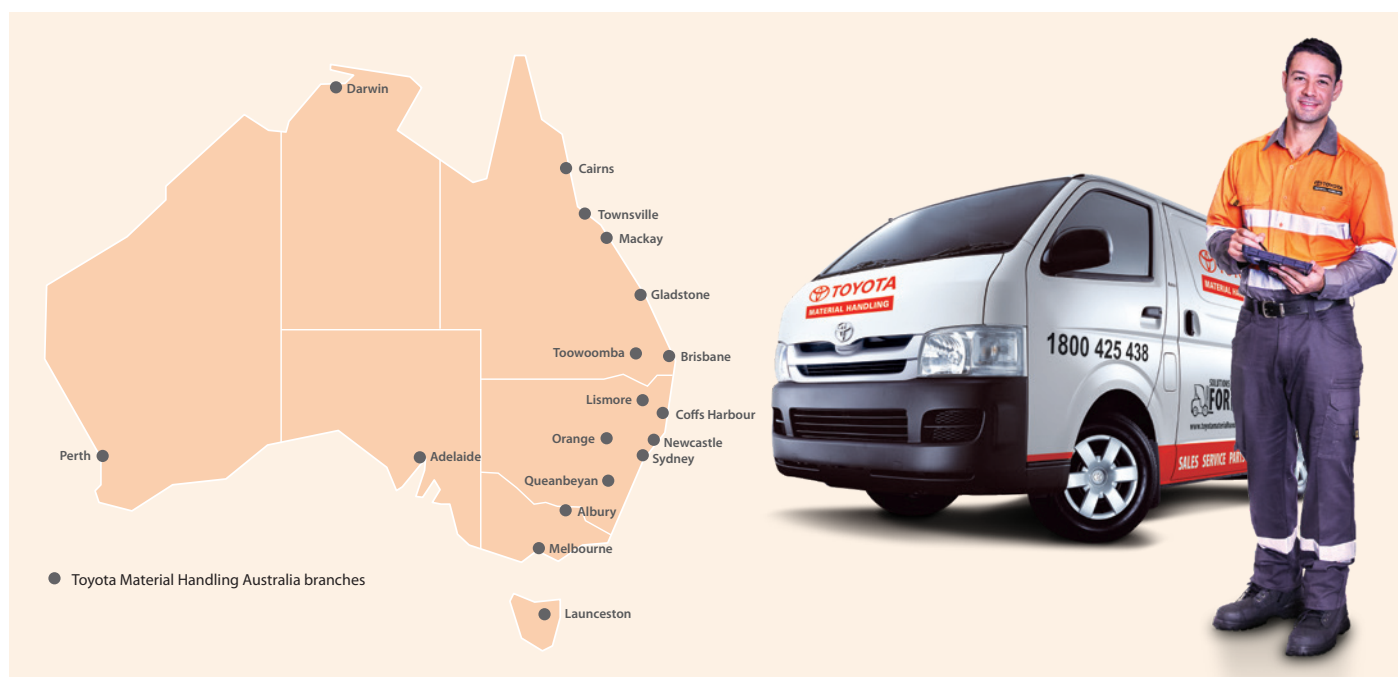

ABOUT TOYOTA MATERIAL HANDLING

For over sixty years, Toyota has been at the forefront of the global industrial equipment market. Drawing on extensive experience gained in advanced automotive engineering and technology, Toyota Material Handling has become one of the global leaders in the production and distribution of material handling equipment.

HUSKI SUPPORT FOR STAYING ON TOP

At Toyota Material Handling, we recognise how important after-sales support is to your business to keep your Huski running. Our reputation may be global, but local service is our top priority.

Our commitment to total customer satisfaction extends nationwide thanks to one of the finest branch networks in Australia. We have major outlets for Toyota Material Handling Huski sales, service and parts located in every state and territory of Australia.
