## Family Planning

Delaying the start of your family is a big step and it is one that takes more than a simple confirmation that you are going to put off having children. Our doctor will take you through the Family planning process for planning your family at the right time.

---

## Health Checks

When a GP checks your state of health, it is called a health check. There are many types of health checks, e.g. sexual health checks or diabetes health checks, and different health checks...
