Latch	Self latching with stainless steel hook deadbolt for improved security performance
Locking	Key locking from both sides. Inside snib locking (with key override). Can only be locked when fully engaged with strike
Plate	Stainless Steel front end plates

Note: Safety mode: (Privacy-lock / Snibbed) Secure mode: (Deadlock). Snib only version also available. No snib version also available. Optional 3 point kits available for premium security. When 3 point kit is fitted, snib activates/operates all 3 locking points

Standards and Compliance

|	
S6	High security for maximum protection Australian Standard (AS4145.2:2008)
D7	High durability for maximum frequency usage Australian Standard (AS4145.2:2008).
	Successfully tested on security screen doors in accordance with Australian Standard (AS 5039-2008): Security Screen Doors and Security Window Grilles.
	Australian Standard (AS 5041-2003): Methods of Test.

8654 Hinged Security Screen Door Lock

Features and Specifications

- 2 stage key locking, offers safety and security for all occupants by giving a choice of selecting safety mode or secure mode when exiting the home

- Turning the key to the first selection engages the safety lock, this offers security from the outside whilst allowing occupants inside to safely exit using the internal lever and snib

- Turning the key to the second selection engages the secure lock, this provides internal and external security, and requires the key to unlock the door from inside and outside

- Push on actuating bar suits above or below centreline applications

- Zinc diecast lock mechanism and furniture

- Easy installation for both new and retrofit applications

- Accepts Lockwood Euro profile lazy cam cylinder

- Available in display and trade packs

Keying

- Use with Lockwood Euro profile lazy cam cylinder - with Kinetic Defence™ and Anti-Drill

- 2 x 5 pin cylinder

- Can be keyed alike to other Lockwood C4 door and window products
