JRL LAND SURVEYORS in Ivanhoe (VIC) : about us

JRL LAND SURVEYORS PTY LTD was created 4 years ago by two directors who have over 25 years of industry experience. The company which started with only two directors has expanded and now employs more than ten people, each assigned different roles. All our surveyors are licensed, extremely professional and helpful.

The company aims at offering the best quality [surveys](#) within short time frames and providing fast, accurate and cost effective information to our clients.

Our prices are extremely competitive. Thanks to our experience in both small and large scale projects, we have created a balance that we believe works best for our clients as well as ourselves.

Our clients extend from architects, property developers, residential builders, commercial builders, real estate agents, solicitors, other surveyors, to home owners looking for some assistance.
