OUTDOOR STORAGE SOLUTIONS

## HANDI-MATE® SHEDS

### STRONG, HIGH QUALITY STORAGE SHEDS

The ingenious Handi-Mate shed is a strong and secure outdoor storage solution that is available in a range of popular colours and a wide selection of sizes. They have been designed to incorporate neatly under eaves and into most spaces where secure storage is required. As soon as you open the door to a Handi-Mate Shed, the extra attention to detail and the refined finish is evident.

### SHEDS THAT ARE DESIGNED TO LAST

Handi-Mate sheds are clad with the strong and attractive Smartspan® high tensile steel sheeting. Smartspan is designed to withstand the rigours of everyday use.

### CHOICE OF SLIDING OR HINGED DOOR

The refined styling and features of the Handi-Mate is further enhanced with the choice of a space saving sliding door or a hinged door for extra strength and security.

Handi-Mate sliding door sheds are perfect for tight locations or for where you need to optimise the use of limited space. The lockable sliding door allows easy access to your storage space and the range also includes a Locker model with double sliding front doors for even greater access.

The hinged door sheds feature a double skinned door with a profiled exterior and a smooth, flat interior surface and steel sheets that are riveted to the frame for extra strength. The door hinges are neatly concealed in the door jamb for extra security. A quality door lock and handle with two keys is included.

### HANDI-MATE SHED FEATURES

- Simple storage solution that comes in a box
- Fits under eaves making it ideal where space is limited
- Attractive and refined styling
- Range of security features
- Popular colours available
- Wide range of sizes to choose from

## DO-IT-YOURSELF OR HAVE IT INSTALLED

Handi-Mate is the ideal do-it-yourself project. They come as a complete boxed package with clear concise instructions and all the components needed to finish the job. The hinged shed door is pre-assembled and pre-attached to the door jamb to simplify installation. Handi-Mate sheds are easy to install yourself or Stratco can recommend an independent qualified installer to do the job for you.

# HANDI-HERITAGE™ SHEDS

## CHARM AND CHARACTER

Handi-Heritage sheds have the style to make them a feature of any garden setting. The 22.5 degree pitched roof not only adds to its traditional charisma, it is also extremely practical. It combines extra head and storage room with the self-cleaning abilities of a gable roof. Handi-Heritage storage sheds feature corrugated steel roof and wall sheeting for a classic appearance. Available in a wide range of colours, there is also the option for a different roof and wall colour.

## STRONG, HIGH QUALITY GARDEN SHEDS

Handi-Heritage sheds have been designed with both strength and quality in mind. They incorporate an attractive slot-n-lock internal framework that provides high strength and flexibility. The framework makes the addition of shelving or pegboards easy, by acting as a pre-existing structure to which they can be fixed. Every component used in the frame is galvanised to ensure a long, useable life. The door is steel framed for strength and rigidity and comes with a key locking door handle for security.

## DO-IT-YOURSELF OR HAVE IT INSTALLED

The framework is simple to install thanks to the preassembled trusses and a slot-n-lock system that is used to join the components together. The corrugated walls feature pre-cut gable end wall sheets for easy installation. Handi-Heritage sheds can be installed yourself or Stratco can recommend an independent qualified installer to do the job for you.

*"Classic style, classic charm"*

SHED QUARTERS

### HANDI-HERITAGE SHED DIMENSIONS

Model	Width	Depth	Wall Height
H1	2.54m	2.52m	1.95m
H2	3.30m	2.52m	1.95m
H3	3.30m	3.30m	1.95m
H4	3.96m	2.52m	1.95m

Width & depth (approx) measured to outside of the roof

**MAINTENANCE:** Regular maintenance is essential to maintain the good looks of all Stratco steel products and to ensure you receive the maximum life-span possible in your area. Washing with clean water must be frequent enough to prevent the accumulation of dust, salts, and pollutants or any other material that will reduce the life of the product. Stratco steel products that are regularly washed by rain require no additional maintenance. No Stratco steel structure or materials are recommended for use over, or in close proximity, to swimming pools or spas. No material that retains water (such as dirt or paving sand) should be placed against the columns. Care must be taken when determining the location of Stratco steel products so that they are not placed in close contact with sources of pollution or environmental factors that could affect the life of the steel. Refer to the 'Selection, Use and Maintenance' brochure for more information.
