COMMERCIAL SOLUTIONS

Twin Cities Glass and Aluminium has been providing installation, repairs and maintenance solutions to commercial and industrial sectors in north Queensland for 30 years.

With a well equipped manufacturing workshop in Townsville, Twin Cities Glass and Aluminium is able to cater for a wide range of glass and aluminium projects.

A team of 20 core staff and the ability to scale up for larger projects and busy periods, along with a fleet of 13 vehicles provides a commercial and industrial solution able to service the northern and western Queensland region.

We understand glass and aluminium is only one aspect of your project. We have 30 years experience delivering on time and on budget with open communication throughout the project, giving your project managers peace of mind you have selected a reliable contractor.

In addition to our professional installation service, we also offer Enduro Shield glass treatments to give you the competitive edge when tendering for commercial work. Enduro Shield is a coating that provides a protective layer to glass panels. This significantly reduces cleaning time resulting in efficiencies and commercial gains for your clients.

To complement our glass and aluminium installation and Enduro Shield services, the Twin Cities Glass and Aluminium repairs and maintenance service is available 24 hours a day, 7 days a week. Our 24 hour call out service gives you and your clients peace of mind, knowing that whatever happens, we are only a phone call away. Our aim is to have your organisation back operating at full capacity in the shortest time possible.

If you are interested in glass and aluminium commercial solutions, please call one of our friendly team members on 07 4773 7711.

INDUSTRY EXPERIENCE

We have produced high quality installation, repairs and maintenance solutions for many clients over the past 30 years. We have experience across a range of industry sectors including:

- Defence
- Local councils
- State government departments
- Federal government departments
- Banks and credit unions
- Department stores
- National retailers
- Grocery stores
- Commercial offices
- Libraries
- Workshops
- Newsagencies
- Restaurants
- Small business

CAPACITY

The team at Twin Cities Glass and Aluminium is 20 members strong. Depending on project size and scope, we have the ability to bring in more staff when required.

Our fleet of 13 vehicles allows us to service clients right across north and west Queensland with high quality glass and aluminium solutions.

Our fully equipped workshop in Townsville is set up with efficient work practices in mind. This allows us to respond to a small single repair job for a client through to a large installation project with the same ease and efficiencies.

Our efficiencies and on site manufacturing capability allow us to produce high quality results for clients in a cost effective manner.

We work in partnership with clients for long term relationships so we can be ready to respond to industry needs on time and on budget.

24 HOUR EMERGENCY SERVICE

In the event of a glass emergency, we're here for you and your clients, no matter what the time is. We understand time is money and we'll work around the clock to bring you a solution to get you back on track as soon as possible.

Insurance work is welcome at Twin Cities Glass and Aluminium. We'll work with you and your insurer to get you back on your feet in no time.

ENDURO SHIELD SOLUTIONS

Enduro Shield is an internationally available glass treatment that protects glass panels. This coating greatly reduces cleaning time, therefore creating cost savings.

Enduro Shield can be applied to new glass prior to installation.

Enduro Shield has been used to treat the glass on the Infinity Tower in Brisbane, the One World Trade Centre in Manhattan and other commercial glass projects around the globe. To find out more about creating a real point of difference for your clients, please call us on 07 4773 7711.

PROVIDING
QUALITY
GLASS
AND ALUMINIUM
SOLUTIONS

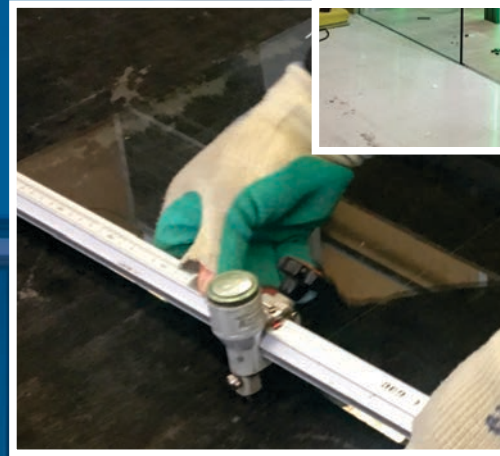

QUALITY

At Twin Cities Glass and Aluminium we are committed to producing high quality products and high quality service each and every time we carry out a job for a client. We ensure this through our continuous improvement policies and processes. This framework governs our manufacturing workshop in Townsville and all on site work.

ENVIRONMENT

Our commitment to minimising the impact our operations have on the environment is carried through every area of our business. From our office, to our workshop, our vehicle fleet and our on site work are all carried out with care for the environment.

SAFETY

Safety is the number one priority at Twin Cities Glass and Aluminium. Our team are proud to carry out our work in a safe manner and looking for ways to minimise risk. Safety in our workplace is more than sound policy and procedure, it is also about attitude.
