

Safety in Electrical Services and Plumbing for Melbourne

Twin Electrics & Plumbing is committed to the health and safety of all our employees and people affected by our activities and strive to be an acknowledged leader in the Occupational Health and Safety field. Our goal is to have injury free workplaces, facilities and operations.

Whether fixing a gas leak or conducting our electrical services, Twin Electrics & Plumbing will work to identify and eliminate hazards, practices, dangerous situations and any behaviour that could cause accidents, illnesses, or damage to employees, contractors, students, property, equipment and the general public where applicable.

Plumbing Melbourne safely

Twin Electrics & Plumbing supervisors and employees are accountable for health and safety performance in their areas of responsibility. It doesn't matter what the situation is, we always take it seriously.

All employees, trainees, and people under our management are required to follow rules relating to health and safety requirements, report incidents, hazards and dangerous situations to their immediate supervision and wear, where required the appropriate Personal Protective Equipment (PPE) is to be used.

We follow correct safety procedures when conducting any of our electrical services and , whether dealing with a gas leak or a blocked drain or conducting an electrical installation or electrical maintenance.

Safe Provision of Electrical Services

The objectives of our policy are to:

- Comply with all relevant statutory obligations;
- Provide adequate resources to establish and maintain safe systems of learning and work;
- Maintain health and safety competency and integrate health and safety requirements in all aspects of Twin Electrics & Plumbing business activities;
- Continuously Improve performance through innovative technology, education and management practices;
- Provide health and safety training for employees, students, visitors, and the general public where applicable;
- Employ only those contractors who aspire to the same level of health and safety standards as Twin Electrics & Plumbing;
- Promote a positive health and safety culture that is based on the principle that all occurrences can be prevented;
- Provide an emergency response program for unforeseen events so as to minimise the risk to people, facilities, assets and the environment.

Our commitment to health and safety is as important as our commitment to other Twin Electrics & Plumbing aims and objectives. Our policy and associated procedures will be reviewed in consultation with relevant parties and on the occasion of any changes or amendments to the relevant legislation and/or every twelve (12) calendar months from the date promulgated
