Aluminium Balustrade

Series 60 Balusters

This balustrade type is a continuous welded aluminium rail balustrade with 16mm centre balusters. The posts come with the option of core fixing or fixing with a welded footplate. There is an option to substitute for a 38 x 25mm top rail.

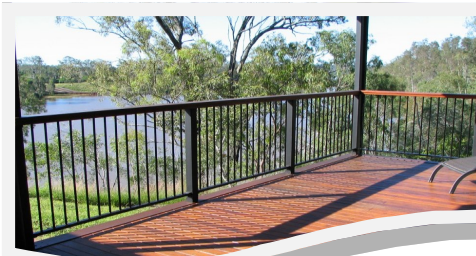

Series 7040 Oval, Balusters

This is an elegant design with a continuous welded aluminium oval rail. It is visually lighter in appearance without comprising strength. The posts come with the option of core fixing or with welded footplates. Option to substitute is a 38 x 25mm bottom rail.

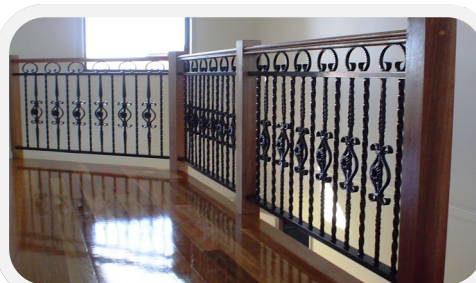

Balustrade Infills

This balustrade features a top flat bar which is fitted to the underside of a timber top rail. Balusters are 16mm in diameter, with the bottom rail being a standard 38 x 25; other bottom rail options are available. Supporting upright posts are welded footplates which can be fitted to timber or concrete decks.

Decorative Balustrade

For the person wanting something out of the ordinary we have available ornamental aluminium components for all your decorative balustrade needs. These are low maintenance, strong and durable with a classic wrought iron look.
