

## Special Offers

### Inline Under Sink Water Filter System Only \$299\* ex GST

**NORMALLY \$498\***

Supplied & Installed. Lets face it, Perth tap water doesn't taste that great. Casotti Plumbers can install an inline water filter to your existing tap so you can enjoy clean filtered water all year round. As a bonus, if you book before Christmas we will offer a \$20 voucher. Book online or call us today to find out more! Health Benefits - Did you know that your body is made up of 60% water? By installing a water filter in your home, here are some of the benefits you can enjoy: Healthier water - Heavy metals such as chlorine and lead are known to cause long term adverse health effects and can be minimised by using a water filter. Chlorine has also been linked to asthma, skin conditions and learning disorders in children. Save money and care for the environment - tap water is about 500 times cheaper than bottled water! By switching to filtered tap water, its a win win for your wallet and the environment by reducing plastic bottle waste. You'll be in control of water quality and reduce the likelihood of toxic metals and contaminants ending up in your tap water. \*Prices are ex GST. Conditions apply.
