

About Us

Locksmith Services Pty Ltd (incorporating Frankston Locksmiths) has been established in Frankston for well over 30 years, it all started in a small shop on the Nepean Hwy.

Now located at 4 Rosella St Frankston, our newly renovated and award winning shop (Master Locksmiths association of Australasia "Best Locksmith shop 2012" sponsored by SG Lock & Security) displays many types of locks, keys, door hardware, safes and keyless remotes. We also have a great collection of antique locks & keys on display in honor of our Locksmith forefather's specialist craft.

Anyone is welcome to visit the showroom to view this interesting display anytime during business hours.

Apart from our Frankston based business, Locksmith Services Pty Ltd also has a large national corporate client base that we provide Locksmithing services and high security restricted master key systems to across Australia and New Zealand.

For friendly professional advice on any aspect of Locks, Keys, Safes, Remotes, Electronic access control or CCTV security systems please call us or visit our showroom.

**ALWAYS THE
SAFE CHOICE!**

Combi-Line Safes

Certified protection against
Fire & Theft

- Tested and certified protection against burglary and fire
- Insurance rating range \$4000 - \$33,000
- LFS 30 P - 30 minute fire rating
