

K&B was established in 1998 and are the sole manufacturers of Infinity Shutters. We are best known for our ability to deliver high quality goods on time at a competitive price. In fact, more than a third of our jobs are from previous and referred customers. K&B measures, manufactures and installs each job with trained specialists assigned to each part of the production line.

Our showroom displays our entire range.

Infinity SHUTTERS

Infinity SHUTTERS

K&B's Infinity Shutters are deliverable between 2-3 weeks in Brisbane, the Gold Coast and on the Sunshine Coast. They were designed in-house and are produced locally. They come with a 20 year warranty, and with appropriate care can be expected to last much longer.

Each **Infinity** shutter is beautiful and elegant; guaranteed to compliment your existing décor.

The rails, stiles and louvres of Infinity Shutters are reinforced with aluminium inserts, a fusion of steel and Polymer-Carbon-Glass Fibre composite. These two factors ensure your product won't crack, chip, split or warp. It's a clear representation of increased strength over competing products.

Infinity Shutters are: hypo-allergenic, recyclable, known to insulate far better than timber, fire-retardant and non-carcinogenic. Four colours are available: Vivid White, Bright White, Classic White and Off-White.

AllviewiQ SHUTTERS

AllviewiQ Shutters are affordable and elegant shutter product that will increase the resale value of your home and stand the test of time with minimal impact on the environment.

Australian owned and manufactured, AllViewiQ Shutters (the most popular window covering) are sold with a 15 year warranty, and are deliverable within 10-15 working days in Brisbane and on the Gold Coast.

Aluminium SHUTTERS

Aluminium shutters are ideally suited for both indoor and outdoor applications (decks, patios, balconies etc.) because of their durability and strength. They require minimum maintenance and are resistant to corrosion.

Benefits of aluminium shutters include: insulation against sound, controlled airflow and light, privacy, and security.

Aluminium shutters can be hinged, bi-fold or sliding.
