

STEEL DECK TUBELIGHT

Steel Deck Tubelights are generally used for flat roofs where a hob or kerb has been supplied by the builder, or is intended to be built. They are suitable for kerbs constructed out of steel, concrete or timber. Please refer to the installation guide for differing kerb types.

These unflashed tubelight kits provide everything you need to bring natural light into your living environment and are ideal for the handyman and tradesman alike. Kits are complete with :

- ④ hi-impact acrylic dome fixed to a fully flashed metal base
- ④ 1.5m of highly reflective, uv resistant reinforced flexilight skylight shaft
- ④ circular ceiling trim and diffuser

Fire dampers are available as an optional accessory for fire rated installations.

MATERIALS

Standard tubelights are constructed with a press formed Zinalume base and a high impact acrylic (prismatic) dome. Fabricated bases are available (in stainless steel, aluminum, copper and galvanised) to meet individual customer requirements. Domes can also be manufactured from standard acrylic and polycarbonate, in clear, opal or tint finishes.
