

PREMIER CRANE HIRE SERVICE

SAFETY & RESOURCES

Our commitment to safety is paramount. All cranes and equipment are regularly audited to ensure our standards are suitably maintained. Our focus is for "No Injuries, Ever" which we carry through the entire business.

Lift planning and site analysis are an essential safety tool for unusual or difficult lifting applications. Coupled with a site specific Safe Work Method Statement, our personnel are well equipped to apply their skills to even the most complicated lift. Auxiliary equipment is easily accessible with an extensive fleet of vehicles to support crane operations.

OUR FLEET
