

# How can I get rid of the rest of my waste?

## Social Media

Most towns and cities have Facebook groups for selling and swapping things. These groups can be a great way to dispose of appliances that you no longer want, but still that work

## Local Authority

With some of your waste, you can request that your local authority comes to collect it. They will often charge you for this, but they will generally collect domestic appliances as well as medical waste

## Waste Companies

Some of your waste can be recycled at home. Food, for example, can be placed in a composter or in a garden waste bin if you have one
