

COMMERCIAL JET BLASTING

Aquatek uses only the most advanced technology in high pressure cleaning equipment which enables us to handle any application with ease.

Aquatek Australia’s **24hr, 7 Days a week** High Pressure Water Jetting service uses the most advanced technology in Industrial High Pressure Pipe Cleaning Equipment, enabling us to handle almost any pipe line clearing application.

Our environmentally friendly Industrial High Pressure Pipe Cleaning proven method has obtained amazing results, clearing silt, sand & debris from storm water & sewer lines, grease traps, associated grease trap lines to storm water easement.

Note: We also have a Standard Strength Hi Pressure Water Jetter for domestic applications as well as a Portable Electric Hi Pressure Water Jetter for inside building work, High Rise Buildings or restricted access area situations.

Our Jet Blasting is suited but not limited to the following

- Sewer lines & sewer stacks
- Storm water lines
- Storm water easements
- Storm water pits & associated pipe work
- Grease pits & associated pipe work

Our services also include Hi Pressure Hot Water Jet Blasting
