

INDUSTRIAL GASKETS

CAPABILITY STATEMENT

Profile

Industrial Gaskets is a manufacturer and supplier of quality gasket and sealing products.

Industrial Gaskets is committed to total client satisfaction through innovative product development, cost effective manufacturing and well recognised quality.

Industrial Gaskets exports manufactured products to Thailand, Malaysia, Hong Kong, United States, Singapore and New Zealand.

Industries supported and supplied include, but are not limited to, Defence, Mining, Oil and Gas, Electronics, Petrochemical, Water / Waste Treatment, Motor Vehicle, Pipeline and General Engineering.

Capabilities

Industrial Gaskets manufactures and stocks a wide range of products including Elastomers (EPDM, Viton, Nitrile, Neoprene), Compressed Fibre Sheetting, Graphite Products, Expansion Joints, Ceramics/Fibreglass products, RTJ's, Spiral Wound Gaskets and PTFE products (refer enclosed "Flyer")

Due to it's unique manufacturing processes and its extensive experience in exporting Industrial Gaskets is able to supply International customers with little to no lead time. Competitive pricing and customer service not seen by it's competitors sets Industrial Gaskets apart from other suppliers.

Industrial Gaskets has the latest technology in CNC Digital machinery that allows International customers to simply email drawings of non standard dimensions which are then imported to the machines to produce the part to the exact dimensions required.
